The chairman stated that Mr. Sabree would have to get a state license because of a new law that was passed that requires all electricians to be state licensed. Once he takes a state test and gets his state license he would be able to get a Beaufort County license without taking a test.

Don Dean stated that even if Mr. Sabree did take the Beaufort County Exam and passed it he would still have to take the state exam in order to do work as an electrician in Beaufort County. Mr. Dean told him that he could get a job with an electrician and work under that individual and he wouldn't need a license.

David Williams was introduced as an Exofficio Fire Official for the Construction Board.

There being no further business the meeting adjourned.
