**DATE: January 22, 2015**

**RE: Needs Assessment 2015 – staff recommendations on prioritization by Community Services Committee  
For meeting discussion on January 26, 2015**

Per our discussion this memo is to provide the Community Services Committee with information regarding the ranking of priorities the previous year, a recap of the remarks from this year's public hearing and a status update on the County's current CDBG project.

During Council's 2/24/14 meeting they ranked priorities for 2014 in the following manner:

- 1) Multiple Neighborhood Improvement projects
- 2) Water, Sewer and/or Drainage Improvements
- 3) Infrastructure to Support New and/or Existing Businesses
- 4) Improvements to Public Facilities

During the 2015 public hearing the items that were specifically mentioned (in no particular order) included public water and water access in the Seabrook area, support of the Osprey Village project, the desire to have a "one stop" shop for community services that are provided through a number of local non profits and neighborhood improvements for safety purposes in low to moderate income areas. Reviewing the general ranking above from last year, I would probably make some minor alterations to format as we discussed but most of the needs would still fall in the first two categories. Please give me a call if we need to discuss more specifics regarding prioritizing the needs. I am also attaching a brief two page summary of what was discussed program wise at the public hearing on 1/12/15 as well as a draft format on the prioritization for your review.

## 2015 CDBG PROGRAM INFO

The SC CDBG Program is designed to provide assistance to units of local government in improving economic opportunities and meeting community revitalization needs, particularly for persons of low and moderate income. The program has been funded through the state since 1982 by US Dept of Housing and Urban Development under the Housing and Community Development Act of 1974, as amended (Title I). The annual allocation from HUD for the program is administered by SC Dept of Commerce Division of Community Grant Programs.

The State is anticipating receiving approx \$19,295,365 CDBG funds for 2015. This allocation has been divided among the SC's programs as follows:

Community Development (CD) Prgm:	\$16,116,505
• Community Infrastructure (CI)	\$10,216,505
• Community Enrichment (CE)	\$3,000,000
• Neighborhood Revitalization(NR)	\$2,000,000
• "Ready to Go"(RTG)	\$600,000
• Special Projects (SP)	\$300,000
Business Development (ED) Prgm:	\$2,000,000
Regional Planning Assistance	\$500,000
State Technical Assistance & Adm:	\$678,860

All projects have to meet a National Objective meaning:

- 1) Benefit low-to-moderate income persons;
- 2) Aid in the prevention or elimination of slums or blight;
- 3) Meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community which are of a recent origin or recently became urgent and where other financial resources are not reasonably available to meet the need (AKA Urgent Need).

Also as a part of the requirements of the program, the locality is expected to undertake activities that promote Fair Housing as such I would remind you that we all have a right to be treated fairly in the sale and rental of housing, in residential real estate transactions and in the provision of brokerage services regardless of our race, color, religion, sex, familial status, or national origin. Title VIII of the Civil Rights Act of 1968 as amended and otherwise known as the Fair Housing Act affords us these protections. Fair Housing is the Law. If you believe that you have been treated unfairly and have been a victim of discriminatory housing practices, you have avenues by which the matter can be investigated. The City/County is committed to Fair Housing. For more information, please call us at 843-726-5536.

**CD General Prgm Description:** Designed to produce outcomes that improve citizen's quality of life and create a competitive environment for business by addressing essential community development needs, primarily of LMI persons. A CD application will compete within five categories that have the same general submission requirements.

- 1) Community Infrastructure: Must contribute to the creation of healthy and sustainable communities by alleviating documented threats to the public welfare of the community or providing improved access to critical public facilities needs including water, sewer, drainage, and roads. State priorities in order are: 1- significant improvements to existing infrastructure that address health concerns, 2- viable regional solutions or new service near business centers where it is cost effective, and 3- upgrades to address quality standards or new service that is not near business centers but is cost effective.
- 2) Community Enrichment: Program designed to fund facilities, services and other activities that strengthen existing communities and support a high quality of life within the following state priority areas: increasing economic competitiveness, education and workforce development, and safe and healthy communities.

*Economic Competitiveness examples*: Developing energy efficiencies for CDBG Public facilities, brownfield projects, downtown streetscape, planning for regional infrastructure.

*Education and Workforce Development examples*: Libraries; publicly owned (non school) facilities that mentor or offer extended education programs to at risk youth; and transportation oriented public facilities or services that serve LMI workforce populations.

*Safe and Healthy Communities examples*: Public safety facilities in LMI neighborhoods; demolition or clearance; health clinics or equipment; firefighting facilities or equipment serving LMI neighborhoods near business centers.

- 3) Neighborhood Revitalization: Program will assist in the development of sustainable communities through revitalization in town residential neighborhoods. Project must incorporate comprehensive strategies for linking commercial revitalization successes with improvements to neighborhoods that are adjacent to downtown/business centers. Activities include: Infrastructure, public facilities, housing, clearance, and public services. A completed neighborhood plan is a pre requisite to the application
- 4) Ready to Go: any project that is eligible under CI and CE programs and has completed all the activities necessary to be ready to bid within 60 days of an award.
- 5) Special Projects: designed to meet community development needs that are not typically funded through the other CDBG programs or one of the other HUD partners to CDBG. These projects could include historic preservation, innovation, energy conservation, parks, trails/greenways. There should be significant leveraging, impact and community support. Has to meet a national objective. Priorities are: 1- Projects that impact ED or increase competitiveness, 2- Projects that address public health and safety or improve LT sustainability, and 3- energy conservation/historic preservation

#### **Business Development Program:**

Application Deadline: None. Application requests accepted as projects develop.

Min/Max based on cost per job amounts and types of jobs provided as a result of the investment:

\$50,000 Minimum/\$500,000 Maximum

Match Requirements: 10% of grant request on all other type projects

Program Description: Program provides assistance to units of local government to improve economic competitiveness and create opportunities for economic productivity; particularly through projects which will create new jobs, retain existing employment, stimulate private investment, and revitalize or facilitate the growth and diversification of the local economy.

Mr. Gary Kubic  
Beaufort County Administrator  
PO Drawer 1228  
Beaufort, SC 29901

Dear Mr. Kubic:

As a member of Beaufort's Child Abuse Prevention Association (CAPA), I have been asked by the Board of Directors to explore the possibility of a land transfer from Beaufort County to CAPA.

[REDACTED]

As Beaufort County grows, the CAPA mission to provide prevention, intervention and programs targeted at breaking the cycle of child abuse and neglect has increased. The shelter operated at, or near, capacity this past year. With increased programs directed at family intervention by the South Carolina Department of Social Services, the need to expand the shelter is quite important.

CAPA would like to acquire approximately 0.39 acres of real estate immediately north of the shelter. Enclosed exhibit shows the area in question. If the county would donate the real property to CAPA, we would have the specific parcel surveyed and a legal description prepared. This donation would greatly enhance our ability to continue serving Beaufort County in preventing child abuse.

If you have questions, please contact me or Christine Wilson, Executive Director of CAPA.

Sincerely,

Charles F. Braddock
