RE: Hilton Head Island Airport Hangar Debt, Note Payable to the General Fund

DATE: April 18, 2014

Beaufort County issued General Obligation Bonds, Series 2004 in the amount of \$30,500,000 on November 10, 2004 with a true interest cost of 4.5%. \$1,800,000 of these bonds was used to construct the Hilton Head Island Airport Hangars. On August 6, 2007, the Finance Committee approved/decided that the Hilton Head Island Airport would repay this debt with equal installments for a term of 25 years. The original amortization schedule was created with one hundred (100) quarterly payments and a 5% interest rate (causing an overpayment of interest). Payments began September 30, 2007 and ended June 30, 2032.

In September 2012, the principal balance of \$25,185,000 Beaufort County General Obligation Bonds, Series 2004 were refinanced as Beaufort County General Obligation Bonds, Series 2012C with a true interest cost of 2.07%. The Hilton Head Island Airport has continued to repay this debt carrying a 5% interest rate.

As of June 30, 2012, the balance of the Hilton Head Island Airport note was \$1,593,917. If this note would have been correctly amortized with 4.5% interest rate from the inception of the debt, the principal balance should have been \$1,580,997. This is the amount that also should have been refinanced with an interest rate of 2.07% in September 2012 and maintained the same maturity date of the original note, June 30, 2032.

During the time period beginning September 30, 2007 and ending June 30, 2012, the Hilton Head Island Airport paid \$426,591 in interest on this note. The amount of interest that should have been paid with a 4.5% interest rate was \$382,510, for an overpayment of interest in the amount of \$44,081.

Once these 2004 bonds were refinanced in September 2012 (2012C Bonds), the Hilton Head Island Airport paid \$78,810 in interest expense from July 1, 2012 through June 30, 2013 as a 5% interest rate. During this time, the interest rate should have been 2.07% and the interest expense should have been \$32,228, for an interest overpayment of \$46,582 in fiscal year 2013. As of June 30, 2013, the principal balance was stated as \$1,546,192 and should have been stated as \$1,516,484, for a principal balance overstatement of \$29,708.

In conclusion, the Hilton Head Island Airport has overpaid interest in the amount of \$90,663 (\$44,081 plus \$46,582) for the time period beginning September 30, 2007 (the beginning of the loan) and ending June 30, 2013. As of June 30, 2013, the principal balance of the note was overstated by \$29,708. Effective July 1, 2013, the correct balance of the note \$1,516,484, will be reflected on the debt service fund since this is the fund where the debt service is paid from. The Hilton Head Island Airport will make quarterly payments in the amount of \$24,185 consisting of principal and interest to the Beaufort County Debt Service Fund. The maturity date of this note will remain as June 30, 2032. The new amortization schedule is attached.

Re: School District Budgetary Revisions / Tax Revenue Collections

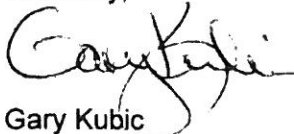

Dear Elected Officials:

This letter is presented to you with the hope that the Beaufort County School District and Beaufort County can craft a budgetary process that generates clarity and stability in the management of public resources. To achieve this goal, budget makers must find a new fiscal strategy that reinforces annual revenue collections that are negatively impacted by property reclassification, declines in property values and appellate refunds. Unfortunately, our current fiscal policy does not provide a counterbalance to declines in annual revenue collections. This current procedural deficit relies upon errorless revenue projections. No fiscal policy should be an act of faith. Instead, it is possible to establish a stable operational revenue stream with the use of general fund reserves when a negative variance in revenue collections occurs.

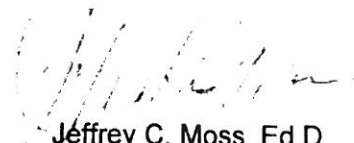

The mechanics of a restructured fiscal policy should remain simple and straightforward. The County Auditor should be responsible for setting the value of a mil with the full support and input from the County Treasurer, Assessor, MIS and the Administrations of the School District and County. The School District general fund reserve policy must be fully funded. The Budget Ordinance for the School District should permit the automatic application of School District reserve funds to offset losses in annual revenue collections. Finally, if the use of School District's general reserve funds is necessary, the subsequent fiscal year must account for it by recognizing the amount as a budget factor and restore the reserve fund to its prior year starting position.

Budgetary outcomes should be seen as a positive force in the educational process. We believe that these budgetary methods help remove the fiscal stress associated with unknown revenue collections. And more importantly, it permits the School District to focus on its educational mission for the 20,750 students in the Beaufort County School District.

Sincerely,

Gary Kubic
Beaufort County Administrator

Jeffrey C. Moss, Ed.D
