COMPREHENSIVE ANNUAL FINANCIAL REPORT

For the Fiscal Year Ended June 30, 2013 County Council of Beaufort County, South Carolina

COMPREHENSIVE ANNUAL FINANCIAL REPORT of Beaufort County, South Carolina

For the Fiscal Year Ended June 30, 2013

issued by

Beaufort County Finance Department

Beaufort County is pleased to present this fiscal year 2013 Comprehensive Annual Financial Report (CAFR), which has also been posted at our website, distributed to local media, and placed at our public libraries.

The CAFR is intended to give readers a sense of what Beaufort County tries to accomplish, not only in its financial reporting, but also in all of its public services. The goal of the CAFR is twofold: first, to present accurate and complete data so that County finances will be understood; and second, to visually depict the value of what the data represent—a cherished quality of life and precious outdoor environment. Specifically, this CAFR includes photographs inspired by the five symbols within the official Beaufort County seal—oak trees, shrimp boats, rich natural resources and a rare marine ecology, Lowcountry residential architecture, and miles of pristine waterways. These symbols echo our history, beauty, and traditions.

The CAFR offers an effective transparent venue for delivering this important information. Transparency in **government is essential for building public trust and is one of Beaufort County's top priorities. We are proud of the** recognition Beaufort County has received for its commitment to transparency and excellence, including consistent Certificates of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association.

Gary Kubic, County Administrator

January 28, 2014

To the Chairman, Members of Beaufort County Council, And Citizens of Beaufort County Beaufort, South Carolina

Presented herein is the Comprehensive Annual Financial Report (CAFR) of Beaufort County, South Carolina for the fiscal year ended June 30, 2013. This report has been prepared by the County's Finance Department, and the responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the County. We believe the data, as presented, is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the County as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain the maximum understanding of the County's financial affairs are included.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Cherry Bekaert, LLP, Certified Public Accountants, has issued an unmodified ("clean") opinion on the County's financial statements for the year ended June 30, 2013. The independent auditor's report is located at the front of the financial section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF LOCAL GOVERNMENT

Beaufort County, which was formed in 1785, operates under the Council/Administrator form of government with Council members elected for four-year terms from each of the eleven single-member districts. This report includes all funds of Beaufort County that are controlled by this governing body, and are considered to be the "reporting entity" known as Beaufort County. The services provided by this reporting entity, and therefore reflected in this financial report, include, but are not limited to: General Government (general administrative services, tax assessment and collection, courts and criminal justice administration, economic development); Public Safety (law enforcement, detention center, emergency medical services, emergency management, building codes enforcement); Public Works (roads and drainage, engineering, solid waste); Public Health (animal control, mosquito control, alcohol and drug programs, disabilities and special needs programs, various subsidies); Public Welfare (veterans services, social services, various subsidies); and Cultural and Recreation (library, parks and leisure services).

In light of GASB Statement 61, The Financial Reporting Entity, the County has excluded the school district, the various public service districts, the fire districts, and the municipalities located within its boundaries as County Council does not exercise oversight responsibility, and accordingly each entity has sufficient discretion in the management of its own affairs. The County Treasurer does collect property taxes and other forms of revenue on behalf of these other political entities. The results of the fiduciary responsibility are reported on the combined financial statements as Agency Funds.

LOCAL ECONOMY

Beaufort County is located in the southeastern corner of the State of South Carolina, known as the "Lowcountry." With a land area of approximately 637 square miles, it is bordered to the south and east by the Atlantic Ocean, to the west by Jasper County, and to the north by Hampton and Colleton Counties. Beaufort County stretches nearly 30 miles along the Atlantic Ocean and includes 64 major islands and hundreds of small islands.

The County is one of the fastest growing areas in South Carolina, with a population of 164,684 in 2012, up from 86,425 in 1990. The County is a center for tourism, retirement and the associated services, and the military in South Carolina. The County has a balanced and very stable economy, created by a diversity of public and private employers, with the unemployment rate well below the national average, the statewide average, and that of the neighboring counties. The local tax base has grown an average of approximately 3% per year over the last five years (discounting the reassessment year).

In addition to the established resort community of Hilton Head Island, there are several major developments underway in southern Beaufort County. These developments include Sun City Hilton Head, with more than 15,000 residents expected at build-out; Spring Island, Callawassie Island, Colleton River Plantation, Belfair, and Westbury park. As expected, these developments have sparked an increase in commercial construction along the Highway 278 corridor, including a Home Depot, a Lowe's, a Wal-Mart Superstore, an expanded Factory Outlet Mall, a Target department store, and several major supermarkets.

Likewise, in northern Beaufort County, communities continue to develop at Dataw Island, Lady's Island, Cat Island, Bray's Island, and Habersham and throughout the City of Beaufort, as well as the Town of Port Royal.

Beaufort County is also the location for three major military installations, the U.S. Marine Corps Recruit Depot located at Parris Island, the Marine Corps Air Station-Beaufort, and the Beaufort Naval Hospital. These locations have benefited by the Department of Defense closing certain other military bases in the nation.

MAJOR INITIATIVES

Our number one goal is to make sure that Beaufort County remains financially sound and that we maintain a respectable contingency account to take care of the true emergencies that do arise from time to time; and to provide for a sufficient fund balance to enable our cash flow to carry us through those months prior to the billing and collection of property tax revenues. We have taken a systematic, businesslike approach to the running of Beaufort County. Additionally, we want to preserve our current "Aa1" Moody's and "AA+" Standard & Poor's bond ratings.

In December 1997, the County adopted a Comprehensive Plan for Beaufort County. A portion of this plan is a comprehensive land use study which proposes various "preservation areas and greenways". As a result, the County taxpayers approved three bond referendums totaling \$115,000,000 for the purchase of rural and critical lands. The County has issued the full \$115,000,000 approved by the referendums with the last issuance related to rural and critical lands occurring in May 2013 for \$25,000,000. The County had expenditures of \$17,556,966 for this initiative during fiscal year 2013.

In November 2004, County voters approved a 1% sales tax referendum, with the proceeds, along with County road impact fees, funding various major road projects throughout Beaufort County. These projects include the expansion of the Bluffton Parkway, creation of a second McTeer bridge span and the widening of South Carolina Highway 170. The County had expenditures of \$9,872,539 for these projects during fiscal year 2013.

LONG-TERM FINANCIAL PLANNING

In December 2006, the County issued bonds for \$30,000,000 to "pay off" the County's Bond Anticipation Notes of \$25,000,000 and provide additional funds for the construction of the Bluffton Parkway Project. This parkway is an alternative route of US Highway 278 and is expected to significantly improve the traffic flow in Southern Beaufort County. The County had expenditures of \$5,556,329 for the entire Bluffton Parkway project during fiscal year 2013.

In August 2012, the County issued \$25,185,000 of General Obligation refunding bonds bearing interest rates of 2.0% to 5.0% and with varying maturity dates through 2025. The proceeds were used to advance refund \$27,050,000 of outstanding 2005 general obligation bonds which had interest rates ranging from 3.0% to 5.0%.

In October 2012, the County issued \$6,000,000 of general obligation bonds through the United States Department of Agriculture bearing an interest rate of 3.5% and with varying maturity dates through 2052. The proceeds of these bonds were used for the County's St. Helena Library project. The Beaufort County St. Helena Library was completed in October 2012. This project was funded by the above referenced bonds, a \$2.5 million United States Department of Agriculture grant and \$1.1 million of Beaufort County library impact fees.

In May 2013, the County issued \$7,580,000 of general obligation bonds bearing interest rates of 1.5% to 4.0% and with varying maturity dates through 2033. The proceeds of these bonds were used to pay off the related bond anticipation notes of \$2,500,000 and \$5,000,000 that were issued in May 2012 and October 2012, respectively.

In May 2013, the County issued \$25,000,000 of general obligation bonds bearing interest rates of 1.5% to 5.0% and with varying maturity dates through 2029. The proceeds of these bonds were used for the County's rural and critical land projects, as approved by referendum in November 2012. As of June 30, 2013, three referendums have approved a total of \$115,000,000 for rural and critical land purchases.

In May 2013, the County issued \$33,150,000 of general obligation refunding bonds bearing interest rates of 1.5% to 5.0% and with varying maturity dates through 2026. The proceeds were used to advance refund \$11,250,000 and \$21,900,000 of outstanding 2006 and 2006B general obligation bonds which had interest rates ranging from 3.5% to 8.0% and 4.0% to 6.75%, respectively.

RELEVANT FINANCIAL INFORMATION

The management of Beaufort County is responsible for developing and maintaining an internal control structure designed to ensure that the assets of the County are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The County's accounting system has given consideration to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. This concept of reasonable assurance recognizes that the cost of control should not exceed the benefits likely to be derived and that the evaluation of costs and benefits requires estimates and judgments by management. Accordingly, management believes that the County's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Beaufort County, South Carolina for its comprehensive annual financial report for the fiscal year ended June 30, 2012. This was the fourth consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is only valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

State statues require an annual audit by independent certified public accountants or independent public accountants. The accounting firm of Cherry Bekeart, LLP was selected by County Council. In addition to meeting the requirements set forth in the statutes, the audit also was designed to meet the requirements of the Single Audit Act of 1996, and related OMB Circular A-133. The auditor's report on the financial statements is included in the financial section of this report. The auditor's reports, pertinent to the requirements of the Single Audit Act, are included in the Single Audit Section.

The preparation of this Comprehensive Annual Financial Report could not have been accomplished without the professional and dedicated services of the entire staff of the Finance Department throughout

the fiscal year. We sincerely appreciate the efforts of other department heads and their employees who contributed to this report.

Additionally, we would like to express our appreciation to the County Administrator and to County Council for their continued support and understanding of the benefits of professional financial operations and reporting.

Respectfully submitted,

-Heller

Executive Director/CEO

Gracene Peluso Beaufort County Resident

Report of Independent Auditor

Beaufort County Council Beaufort County, South Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Beaufort County, South Carolina (the "County"), as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of modified approach for airport infrastructure assets, and the schedule of funding progress, as listed in the table of contents, be presented to supplement the basic financial statements.

Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section, other supplementary information and the statistical section and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is also presented for the purpose of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States and Local Governments, and Non-Profit Organizations* and South Carolina Code of Laws Section 14-1-208(E)(2), and is not a required part of the basic financial statements.

The other supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements the underlying and other records used to prepare the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Effect of Adopting New Accounting Standards

As discussed in Note 1 to the financial statements, the Governmental Accounting Standards Board recently issued new accounting standards which provide financial reporting guidance for deferred outflows of resources and deferred inflows of resources requiring segregation of deferred outflows and inflows from assets and liabilities for both governmental financial statements and accrual basis financial statements. The County adopted the new standards during the year ended June 30, 2013. Our opinion is not modified with respect to that matter.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 31, 2014, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

Joan Eckhardt Beaufort County Resident

As management of Beaufort County, South Carolina (the County), we offer the readers of the County's financial statements this narrative overview and analysis of the financial activities of Beaufort County, South Carolina for the fiscal year ended June 30, 2013. We encourage the readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages 1 through 6 of this report.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of Beaufort County exceeded its liabilities and deferred inflows of resources at June 30, 2013 by \$344,847,538 (net position). Of this amount the unrestricted portion of net position, which may be used to meet the government's ongoing obligations to citizens and creditors, is \$3,546,480.
- The government's total net position increased by \$28,478,678 during the fiscal year ended June 30, 2013 with a \$28,158,614 increase resulting from governmental activities and a \$320,064 increase resulting from business type activities.
- At the close of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$134,071,046, a decrease of \$14,003,191 in comparison with the prior year. Approximately 15 percent, \$20,207,988 is available for spending at the government's discretion (unassigned fund balance).
- At the end of the current fiscal year, the County's unassigned fund balance of the general fund was \$20,207,988, or approximately 21 percent of the general fund expenditures and transfers.
- Beaufort County's net capital assets increased by \$25,116,884 during the current fiscal year. The increase in governmental
 activities net capital assets of \$25,380,152 was mostly the result of sales tax road project additions to infrastructure and construction
 in progress, purchases of property through the Real Property Purchase Program and the completion of the St. Helena Library
 construction project.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements – The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the County's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The *statement of activities* presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, public safety, public works, public health, public welfare, and cultural and recreation. The business-type activities include the garage,

stormwater utility, the Lady's Island Airport, and the Hilton Head Island Airport. The business-type activities function for all practical purposes as departments of the County, and therefore have been included as integral parts of the primary government.

The government-wide financial statements can be found on pages 30 through 31 of this report.

Fund financial statements – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of Beaufort County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows* and *outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the County wide general obligation bonds fund, the New River Tax Increment Financing District (TIF) bonds fund, the Bluffton-County TIF bonds fund, the sales tax projects fund, and the real property program fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The County adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic fund financial statements for governmental funds can be found on pages 32 through 36 of this report.

Proprietary funds – The County maintains four different types of proprietary funds, three of which are *enterprise funds*. Enterprise funds are used to report the same functions *as business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for its stormwater utility, Lady's Island Airport, and Hilton Head Island Airport operations. These funds report the services provided by the County for which the County charges a user fee or charge intended to recover all or a significant portion of their costs.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for stormwater utility, Lady's Island Airport, and the Hilton Head Island Airport, all of which are considered to be major funds of the County.

Internal service funds are an accounting mechanism to accumulate and allocate costs internally for the County. The County uses internal service funds to account for its garage.

The basic proprietary fund financial statements can be found on pages 37 through 40 of this report.

Fiduciary funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for the fiduciary funds is much like that used for proprietary funds.

The statement of fiduciary net position can be found on page 41 of this report.

Notes to the financial statements – The notes provide additional information that is essential to a full understanding of the data provided in both the government-wide and the fund financial statements. The notes are presented on pages 42 through 70 of the report.

Other supplemental information – In addition to the basic financial statements and accompanying notes, this report also presents certain supplemental information that further supports the financial statements.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented within this section of this report and can be found on pages 89 through 216.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Beaufort County, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$344,847,538 as of June 30, 2013.

Of this amount, \$259,766,695 (approximately 75 percent) reflects the County's investment in capital assets (land, buildings and equipment); less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide a variety of services to citizens. Accordingly, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to repay the debt.

An additional \$81,534,363 of the County's net position (approximately 24 percent) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position is \$3,546,480.

At the end of the current fiscal year, Beaufort County is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities, with the exception of unrestricted business-type activities' net position, which has a balance of (\$1,180,550).

The County's total net position increased by \$28,478,678 during the 2013 fiscal year. Key elements of this increase are as follows:

- The County's current and other assets decreased by \$11.4 million as compared to fiscal year 2012. This decrease is mostly attributable to cash and investments decreasing by \$8 million and receivables decreasing by \$3.2 million.
- In fiscal year 2013, the County had \$5.6 million of deferred outflows of resources related to the advance refundings of several bonds. This was a \$5.6 million increase as compared to fiscal year 2012.
- The County's net capital assets increased by \$25.4 million as compared to fiscal year 2012. This increase occurred mostly from the County's \$9.7 million investment in infrastructure related to 1% sales tax referendum road projects, \$17.2 million in purchases of land through the County's rural and critical lands referendum program, a \$3.6 million investment in the County's St. Helena Library project, \$1.2 million in other road projects through the County's road improvement program and \$9.3 million investment in the County's Courthouse renovation project. See the capital assets and debt administration section below for more detail.
- The County's other liabilities increased by \$5.3 million as compared to fiscal year 2012. This increase is attributable to the increase in accounts payable in the amount of \$3.2 million and the increase in the current portion of long-term debt in the amount of \$3.1 million. Accrued payroll also decreased in the amount of \$.9 million as compared to fiscal year 2012.
- The County's long-term liabilities decreased by \$14.1 million. This decrease is due to bond principal being paid as well as the advance refundings of bonds.

Beaufort County's Changes in Net Position For the Fiscal Years Ended June 30, 2013 and 2012

Governmental activities increased the County's net position by \$28.2 million, thereby accounting for 99 percent of the total growth in the net position of the County. Key elements in fiscal year 2013's activity are as follows:

- Capital grants and contributions received by the County increased by \$10.9 million (or 452%) in fiscal year 2013 as compared to fiscal year 2012. This significant increase is attributed to a \$8.2 million increase in grants related to the South Carolina Highway 170 Widening project and the Bluffton Parkway Phase 5A Segment 2 (Bluffton Parkway Flyover Bridge) project as well as a \$2.5 million increase in grants related to the USDA grant for the St. Helena Library.
- Charges for services revenues increased by approximately \$2.4 million (or 7.7%) as compared to the 2012 fiscal year. This
 increase is attributed to a \$.3 million increase in Register of Deeds fees, a \$.3 million increase in Emergency Medical Services Fees,
 a \$1.2 million increase in E-911 revenue and a \$.6 million increase in road impact fees in the 2013 fiscal year as compared to the
 2012 fiscal year. These increases can be attributed to the ongoing recovery in the local economy and slightly increased consumer
 spending.
- Property tax revenues increased by \$1.2 million (or 1.3%) in fiscal year 2013 as compared to fiscal year 2012. This slight increase is attributable to the County's purchase of real property millage rate increase from 2.76 in fiscal year 2012 to 3.87 in fiscal year 2013.
- Increases in the fiscal year 2013 revenues detailed above were offset by a decrease in 1% sales tax revenue. In the 2013 fiscal year, sales tax revenues decreased by approximately \$15.4 million (or 50.7%) as compared to the 2012 fiscal year. This decrease is due to the 1% imposed sales tax ending effective October 1, 2012.
- Interest expense decreased by \$1.5 million (or 14.2%) in fiscal year 2013 as compared to fiscal year 2012. This decrease is mostly attributable to the advance refundings of several of the County's bonds.
- County public works expenses increased by nearly \$3.5 million (or 17.3%) in fiscal year 2013 as compared to fiscal year 2012. \$1.6 million of this increase is attributed to County road improvement projects. \$.6 million of this increase is due to an increase in the County's public works operating expenses and a \$.2 million increase in capital equipment purchases. \$.6 million of the increase is due to public works assets.
- County public safety expenses increased by \$1.2 million (or 2.4%) in fiscal year 2013 as compared to fiscal year 2012. The increase resulted mostly from a \$.7 million increase in other post-employment benefit expense and a \$.5 million increase in operating expenses.
- Other increases in fiscal year 2013 County expenses include a \$2.2 million (or 15.9%) increase in Cultural and Recreation expenses and a \$.5 million (or 1.6%) increase in General Government expenses as compared to fiscal year 2012. Most of the increase in Cultural and Recreation expenses are related to library supplies and materials for the St. Helena Library.

Business-type activities increased the County's net position by \$.3 million, accounting for 1 percent of the total growth in the net position of the County. Key elements of this increase are as follows:

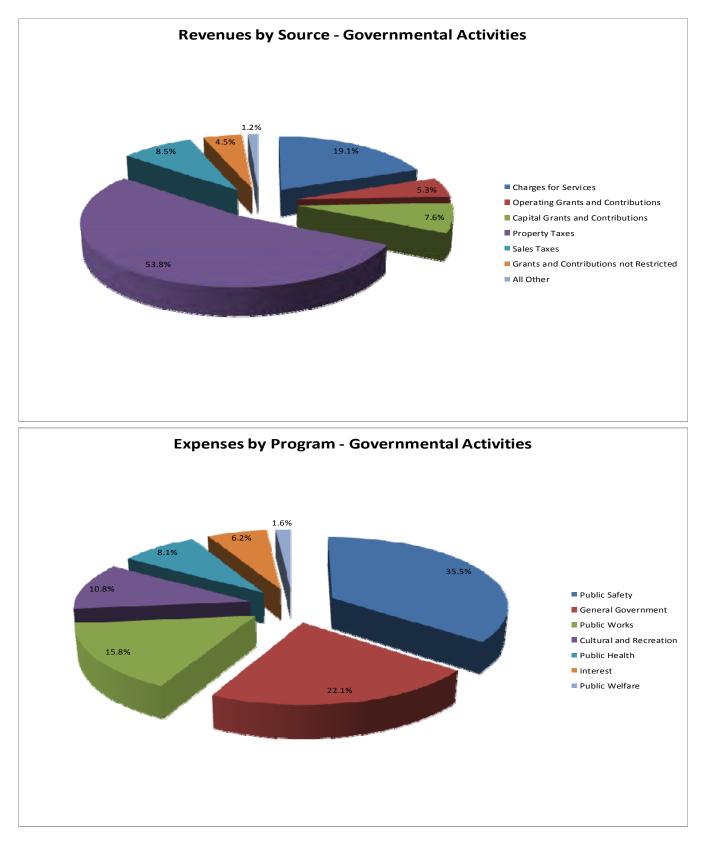

- The Hilton Head Island Airport's revenues decreased \$.1 million in fiscal year 2013, as compared to fiscal year 2012. This net decrease is a result of a \$.3 million increase in operating revenues due to the increase in fuel commission and passenger facility charges and a \$.4 million decrease in grant revenues.
- The decrease in the Hilton Head Island Airport's revenues was offset by a \$.6 million decrease in non-capitalized grant expenses in fiscal year 2013 as compared to fiscal year 2012.
- In fiscal year 2013, the Stormwater Utility's revenues decreased by \$55 thousand as compared to fiscal year 2012. The Stormwater Utility's expenses also increased by \$121 thousand in fiscal year 2013 as compared to fiscal year 2012.
- The Lady's Island Airport's revenues decreased \$86 thousand in fiscal year 2013, as compared to fiscal year 2012. The Lady's Island Airport expenses increased in fiscal year 2013 by \$1 thousand as compared to fiscal year 2012.

2009

FINANCIAL ANALYSIS OF THE GOVERNMENTAL FUNDS

As noted earlier, Beaufort County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds – The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$134,071,046, a decrease of \$14,003,191, in comparison with the prior year. Approximately 15 percent of this total fund balance (\$20,207,988) constitutes *unassigned fund balance*, which is available for spending at the government's discretion. The remainder of the fund balance totaling \$113,863,058 is either nonspendable, restricted, committed, or assigned for specific spending. This includes \$3,261,058 "not in spendable form" for items that are not expected to be converted to cash within one year, such as prepaid items and long-term notes receivable. The remainder includes \$110,602,000 restricted, committed, or assigned for programs.

General Fund – The general fund is the main operating fund of the County. At the end of the current fiscal year, the unassigned portion of the fund balance of the general fund was \$20,207,988, while the total fund balance was \$24,221,269. As a measure of the general fund's liquidity, a comparison is made of both unreserved fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents approximately 21 percent of total general fund expenditures and transfers out, while the total fund balance represents approximately 25 percent of total general fund expenditures. Refer to pages 23 to 26 for the key elements of fiscal year 2013's general fund activity.

County Wide General Obligation Bonds Fund – At the end of the current fiscal year, the total fund balance of the county wide general obligation bonds fund was \$8,880,165. \$1,105,714 (or 12%) of the county wide general obligation bonds fund balance is nonspendable, as it consists of the long-term portion of a note receivable. The remaining \$7,774,451 (or 88%) of the county wide general obligation bonds fund balance is restricted for debt service. This fund recognized revenues of \$8,205,885, total expenditures of \$22,245,093, and \$18,625,087 in other financing sources, for a net change in fund balance of \$4,585,879. The county wide general obligation bonds fund balance experienced the \$4.6 million increase in fund balance mostly due to advance refundings of 2005 and 2006 general obligation bonds. The County has a debt fund balance policy requiring millage to be set at annual required debt service levels.

New River TIF Bonds Fund – At the end of the current fiscal year, the total fund balance of the New River TIF bonds fund was \$0. The New River TIF bonds fund recognized revenues of \$6,673,517 and expenditures of \$37,636,175 and \$520,912 in other financing sources, for a net change in fund balance of (\$30,441,746). The New River TIF bonds were retired during fiscal year 2013.

Bluffton - County TIF Bonds Fund – At the end of the current fiscal year, the total fund balance of the Bluffton - County TIF bonds fund was \$1,899,956, all of which was restricted for debt service. The Bluffton – County TIF bonds fund recognized revenues of \$757,224, expenditures of \$21,246,406, and \$7,816,239, in other financing sources for a net change in fund balance of (\$12,672,943). The Bluffton – County TIF bonds was partially retired during fiscal year 2013.

Sales Tax Projects Fund – At the end of the current fiscal year, the total fund balance of the sales tax projects fund was \$41,322,014, all of which was restricted for capital projects. The sales tax projects fund recognized revenues of \$23,357,706, total expenditures of \$9,872,539, for a net change in fund balance of \$13,485,167. Expenditures within the program slowed slightly within the 2013 fiscal year as compared to the 2012 fiscal year, as the County completed several projects and was in the beginning phases of several other projects within fiscal year 2013. As sales tax collections for this project ceased during fiscal year 2013, as the intended referendum sales tax collection amount was fully collected, this fund balance will be spent in upcoming years.

Real Property Program Fund – At the end of the current fiscal year, the total fund balance of the real property program fund was \$18,850,457, all of which was restricted for capital projects. The real property program fund recognized revenues of \$37,003, total expenditures of \$17,556,967, and \$25,000,000 in other financing sources, for a net change in fund balance of \$7,480,036. This planned increase in fund balance of \$7.5 million is solely related to the County's land preservation program that is funded by bond borrowings authorized by three voter referendums totaling \$115 million. The County borrowed the last \$25 million of the \$115 million authorized from the three referendums in the 2013 fiscal year.

Details of the County's governmental funds are shown in the government-wide financial statements. Further details of the County's major funds are shown on Schedule "A" and further details of the County's nonmajor governmental funds are shown on Schedules "B", "C", "D" and "E".

Proprietary funds – The focus of the County's proprietary funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County proprietary funds' financing requirements. As restrictions, commitments, and other limitations on net position significantly affect the availability of fund resources for future use, unreserved net position may serve as a useful measure of a government's proprietary net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's proprietary funds reported combined ending net position of \$22,781,042, which is an increase of \$320,064 in comparison with the prior year.

Stormwater Utility – At the end of the current fiscal year, the net position of the stormwater utility fund was \$2,642,660, of which \$891,039 was invested in capital assets, net of related debt, leaving a balance of \$1,751,621 in unrestricted net position. The stormwater utility fund recognized operating revenues of \$3,155,000, total operating expenses of \$3,246,022, and \$36 in net non-operating revenues, for a change in net position of (\$90,986). The 3% decrease in the stormwater utility fund balance in the 2013 fiscal year was mostly the result of increased expenses within the Stormwater Utility in fiscal year 2013 compared to fiscal year 2012.

Lady's Island Airport – At the end of the current fiscal year, the net position of the Lady's Island Airport fund was \$3,678,166, of which \$3,981,325 was invested in capital assets, net of related debt, leaving a deficit balance of \$303,159 in unrestricted net position. The Lady's Island Airport recognized operating revenues of \$560,766, total operating expenses of \$619,431, and \$38,701 in net non-operating expenses, for a change in net position of (\$97,366). The relatively flat performance of the Lady's Island Airport fund in the 2013 fiscal year was mostly the result of light Federal Aviation Administration (FAA) revenues of \$8,936 for mostly non-operating (non-capitalized) grant expenses, which mostly consisted of tree mitigation projects around the airport.

Hilton Head Island Airport – At the end of the current fiscal year, the net position of the Hilton Head Island Airport fund was \$16,460,216, of which \$19,089,228 was invested in capital assets, net of related debt, leaving a deficit balance of \$2,629,012 in unrestricted net position. The Hilton Head Island Airport recognized operating revenues of \$1,905,850, total operating expenses of \$1,980,199, and \$582,765 in net non-operating revenues, for a change in net position of \$508,416. The increase in net position within the Hilton Head Island Airport fund in the 2013 fiscal year was mostly the result of the increased fuel commission and passenger facility charges. The increase is also due to the Federal Aviation Administration (FAA) revenue for non-operating (capitalized) grant expenses.

GENERAL FUND BUDGETARY HIGHLIGHTS

Original Budget to Final Budget Comparison for the Fiscal Year Ended June 30, 2013

	Original Budget	Final Budget	Variance w ith Final Budget Positive (Negative)

Transfers Out	(2,852,129)	(3,281,664)	(429,535)
Total Other Financing Sources			
(Uses)	(1,592,129)	(1,624,414)	(32,285)
Net Change in Fund Balance	-	(452,817)	(452,817)
Fund Balance - beginning	22,342,008	22,342,008	
Fund Balance - ending	\$ 22,342,008	\$21,889,191	\$ (452,817)

The general fund original budget's net position varied from its final budget's net position by nearly \$453 thousand. This variation is due to three ordinances established during fiscal year 2013 that appropriated \$150 thousand each to the Daufuskie Ferry and Public Defender and \$153 thousand to the Solicitor. Key elements of the budget amendments are as follows:

- There were decreasing budget revisions totaling \$.3 million to the County's general fund revenues. The decreasing budget revisions relate to decreased state grant revenue and miscellaneous revenue. Miscellaneous revenue consists of rental income, sale of county property and sale of recyclables.
- General fund expenditures appropriations were increased by \$76 thousand.
- General fund other financing sources appropriations increased by \$32 thousand. Transfers in and out appropriations were both increased \$.4 million. Appropriations for transfers in were mostly increased due to special revenue funds transferring money to the general fund. The transfers out budget revisions are related to the three ordinances discussed above.

Final Budget to Actual Comparison for the Fiscal Year Ended June 30, 2013

Fund Balance - ending	\$	21,889,191	\$ 24,221,269	\$	2,332,078

The actual net position of the County's general fund varied from its final budget's net position by \$2.3 million. Key elements of this are as follows:

- The County's general fund actual revenues had a positive variance of \$1 million as compared to the final budget of fiscal year 2013. In addition, the County's general fund actual expenditures had a positive variance of \$2 million as compared to the final budget of fiscal year 2013.
- While the County's revenues and expenditures had positive variances, the actual other financing uses had a negative variance of \$.7 million as compared to final budget for fiscal year 2013.
- The majority of the positive variance within the County's general fund expenditures from the final budget is due to decreased personnel expenditures which were the result of not filling many vacated positions throughout the 2013 fiscal year.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets – Beaufort County's investment in capital assets for its governmental and business-type activities as of June 30, 2013 was \$474,203,172 (net of accumulated depreciation). This investment in capital assets includes land and easements, buildings and improvements, infrastructure, and equipment. The total increase in the County's investment in capital assets for the current fiscal year was 6 percent (in which governmental activities capital assets increased by 6 percent and business-type activities capital assets increased by less than 1 percent).

In lieu of annual depreciation, the County has elected to use the modified approach for its airport infrastructure assets, which include runways, taxiways, and aprons. As of June 30, 2013, 100 percent of airport infrastructure assets were in a fair or better condition.

Additional information on the County's modified approach for airport infrastructure assets can be found on Schedule 2 on page 72 of this report.

Major capital asset events during the current fiscal year included the following:

- The County added \$9.7 million in governmental activities infrastructure and construction in progress related to 1% sales tax referendum road projects.
- An additional \$3.6 million was added to governmental activities' construction in progress related to the ongoing St. Helena Library construction project. This project was completed and capitalized in fiscal year 2013.
- The County purchased approximately \$17.2 million in governmental activities land and easements for the County's rural and critical lands program during the 2013 fiscal year.
- \$1.2 million in additional County road improvement program governmental activities projects were started and/or completed in fiscal year 2013.
- Net proprietary asset additions of \$.9 million, consists of land acquisition by the Hilton Head Island Airport as well as the beginning of the terminal improvements and drainage improvements. Additionally, the Stormwater Utility purchased equipment totaling \$120 thousand. These additions were offset by depreciation totaling \$.9 million.

Additional information on the County's capital assets can be found in note 4 on pages 51 through 52 of this report.

Long-Term Debt – At the end of the current fiscal year, Beaufort County had \$247,123,541 of total long-term debt outstanding. The total amount of debt is backed by the full faith and credit of the government.

Beaufort County's Outstanding Debt

June 30, 2013 and 2012

	Government	Governmental Activities					
	2013	2012					
General Obligation Bonds	\$219,235,000	\$190,915,000					
Bond Anticipation Notes	-	2,500,000					
TIF Revenue Bonds	5,685,000	56,910,000					
Premiums	16,576,387	7,509,598					
Discount	-	(101,073)					
Total Outstanding Debt	\$241,496,387	\$257,733,525					

Major outstanding debt events during the current fiscal year included the following:

- In August 2012, the County issued \$25,185,000 of General Obligation refunding bonds bearing interest rates of 2.0% to 5.0% and with varying maturity dates through 2025. The proceeds were used to advance refund \$27,050,000 of outstanding 2005 general obligation bonds which had interest rates ranging from 3.0% to 5.0%.
- In October 2012, the County issued \$6,000,000 of general obligation bonds through the United States Department of Agriculture bearing an interest rate of 3.5% and with varying maturity dates through 2052. The proceeds of these bonds were used for the County's St. Helena Library project.
- In May 2013, the County issued \$7,580,000 of general obligation bonds bearing interest rates of 1.5% to 4.0% and with varying maturity dates through 2033. The proceeds of these bonds were used to pay off the related bond anticipation notes of \$2,500,000 and \$5,000,000 that were issued in May 2012 and October 2012, respectively.
- In May 2013, the County issued \$25,000,000 of general obligation bonds bearing interest rates of 1.5% to 5.0% and with varying maturity dates through 2029. The proceeds of these bonds were used for the County's rural and critical land projects, as approved by referendum in November 2012.
- In May 2013, the County issued \$33,150,000 of general obligation refunding bonds bearing interest rates of 1.5% to 5.0% and with varying maturity dates through 2026. The proceeds were used to advance refund \$11,250,000 and \$21,900,000 of outstanding 2006 and 2006B general obligation bonds which had interest rates ranging from 3.5% to 8.0% and 4.0% to 6.75%, respectively.
- There was \$72,805,000 in debt service principal paid during the fiscal year ended June 30, 2013.

The County maintains an underlying, uninsured "AA+" bond rating from Standard & Poor's Rating Group for all of its general obligation bonds, an underlying, uninsured "Aa1" bond rating from Moody's Investors Service for all of its general obligation bonds, and an underlying, uninsured "AA" bond rating from Fitch for its 2003 through 2007B general obligations bonds. Additionally the County maintains an underlying, uninsured "A4" bond rating for its TIF revenue bonds from Standard & Poor's Rating Group.

State statutes limit the amount of general obligation debt a governmental entity may issue to 8 percent of its total assessed valuation less debt issued by referendum and debt issued and paid by other sources. The current debt limitation for the County is \$145,975,855. Beaufort County was \$50,943,965 under this legal limit at June 30, 2013.

Additional information on the County's long-term debt can be found in note 5 on pages 53 through 59 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

- The unemployment rate for Beaufort County was 7.9 percent at June 30, 2013, which is lower than the rate of 8.8 percent a year ago. This compares favorably with the State of South Carolina's average unemployment rate of 8.1 percent at June 30, 2013 and compares unfavorably to the national average unemployment rate of 7.6 percent at June 30, 2013.
- The housing market downturn continued to affect the County during the 2013 fiscal year, however the downturn in the County was much less severe than in other areas around the country.
- The cost of living in this region still compares favorably to other areas of the country.

All of these factors were considered in preparing Beaufort County's budget for the 2013 fiscal year.

As of June 30, 2013, the County's unassigned general fund balance was \$20,207,988. Three ordinances passed during fiscal year 2013 appropriated \$453 thousand of the County's general fund balance to be expended. Due to the County's reduction in operating expenditures there was an increase to the County's general fund balance in the amount of \$1,879,261 during fiscal year 2013.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of Beaufort County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Department, Post Office Box 1228, Beaufort, SC 29901-1228.

BEAUFORT COUNTY, SOUTH CAROLINA RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION June 30, 2013

Total Governmental Fund Balances (Exhibit 3)	\$ 134,071,046	
Amounts reported for governmental activities in the statement of Net Position are different because:		
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in governmental funds (\$450,241,580 less internal service fund balance of \$127,908).	450,113,672	
Other long-term assets are not available to pay for current period expenditures and, therefore, are reported as deferred in governmental funds - property taxes.	1,968,360	
Deferred charge on refundings of debt	5,627,154	
Internal service funds are used by management to charge the costs of fleet services to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of Net Position.	27,070	
Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in governmental funds. Accrued Interest Payable Current Portion of Long Term Debt Accrued Compensated Absences Net Other Post Employment Benefits Obligation (\$23,606,469 less internal service fund balance of \$5,019)	(269,740,806)	(1,531,170) (16,217,962) (3,111,799) (23,601,450) (25, 270,425)
Long-term obligations Net Position of Governmental Activities	<u>\$ 322,066,496</u>	<u>(225,278,425</u>)

BEAUFORT COUNTY, SOUTH CAROLINA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended June 30, 2013

Amounts reported for governmental activities in the statement of activities (Exhibit 2) are different because:		
Total Net Change in Fund Balances - Governmental Funds (Exhibit 4)	\$ (14,003,191)	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets are allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay excluded depreciation in the curent period.		
Capital Outlay	43,374,942	
Depreciation (\$17,903,529 less \$28,233 internal service fund depreciation)	(17,875,296)	
In the statement of activities, the loss on disposal of capital assets is reported. Conversely,		
governmental funds do not report any gain or loss on disposal of capital assets.		
Net Book Value of Capital Assets Disposed	(125,089)	
Because some property taxes will not be collected for several months after the County's fiscal		
year ends, they are not considered "available" revenues in the governmental funds		
Increase in Deferred Property Taxes	33,303	
The issuance of long-term debt (bonds, leases) provides current financial resources to governmental		
funds, while the repayment of the principal of long-term debt consumes the current financial		
resources of governmental funds. Neither transactions has any affect on net position. Also,		
governmental funds report the effect of premiums, discounts, and similar items when debt is first		
issued, whereas these amounts are deferred and amortized in the statement of activities. This		
amount is net of the effect of these differences in the treatment of long-term debt and related items.	21,864,291	
Issuance of Long-Term Bonds and Bond Anticipation Notes		(49,265,000)
Bond Principal Payments		72,805,000
Issuance of Long-Term Bonds to Refinance 2005 and 2006 Bonds		(58,335,000)
Defeased Bonds in Bond Refinance of 2005 and 2006 Bonds		65,909,303
Addition of Bond Premiums on Long-Term Bonds and Bond Anticipation Notes		(11,525,901)
Amortization of Bond Premiums and Discount		1,411,784
Addition of Deferred Loss on Advance Refundings		1,067,851
Amortization of Deferred Loss on Advance Refundings		(203,746)
Some expenses reported in the statement of activities do not require the use of current financial		
resources and, therefore, are not reported as expenditures in governmental funds		
Decrease in Accrued Interest	148,841	
Increase in Accrued Compensated Absences	(90,123)	
Increase in Other Post Employment Benefit Cost	(5,103,885)	
The net revenue (expense) of certain activities of internal service funds reported with governmental activities	(65,179)	
Change in Net Position of Governmental Activities	<u>\$ 28,158,614</u>	

an Arth

1. Summary of Significant Accounting Policies

The financial statements of Beaufort County, South Carolina, have been prepared in conformity with accounting principles (GAAP) generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the government's accounting policies are described below.

During the year ended June 30, 2013, the County implemented SGAS No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position. SGAS No. 63 identifies net position as the residual of all other elements presented in a statement of financial position. This Statement amends the net asset reporting requirements in SGAS No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, and other pronouncements by incorporating deferred outflows of resources and deferred inflows of resources into the definitions of the required components of the residual measure and by renaming that measure as net position, rather than net assets. The implementation of SGAS No. 63 did not result in a change to beginning net position.

During the year ended June 30, 2013, the County implemented SGAS No. 65, Items Previously Reported as Assets and Liabilities. SGAS No. 65 establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities. The provisions of SGAS No. 65 did not result in a change to beginning net position.

Reporting Entity

Beaufort County operates under the Council/Administrator form of government with Council members elected for four-year terms from each of the eleven single-member districts. This report includes all funds of Beaufort County that are controlled by this governing body, and are considered to be the "reporting entity" known as Beaufort County.

Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. For the most part, the effect of interfund activity has been removed from the statements. The statements distinguish between those activities of the County that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities for the County at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and for the business-type activities of the County. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the County.

Fund Financial Statements

During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column.

1. <u>Summary of Significant Accounting Policies – Continued:</u>

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as is the proprietary fund. The fiduciary fund financial statements are reported using *no measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The county wide general obligation bond fund accounts for the expenditures of the bond proceeds of the bonds issued for various capital projects throughout the County.

The New River Tax Incremental Financing District (TIF) bonds fund accounts for the expenditure of the bond proceeds of the bonds issued for the improvements within the TIF district. These improvements include the new river campus for the University of South Carolina-Beaufort and the south campus for the Technical College of the Lowcountry.

The Bluffton County TIF bonds fund accounts for the expenditure of the bond proceeds of the bonds issued for the improvements within the TIF district. These improvements included various projects within the Town of Bluffton, which included the Beaufort County Library System's Bluffton branch.

The sales tax projects fund accounts for the expenditure of the 1% local sales tax referendum proceeds which are used for various capital projects throughout the County.

The real property purchase program fund accounts for the expenditure of bond proceeds of the bonds issued for the purchase of rural and critical lands within the County.

The County reports the following major enterprise funds:

The stormwater utility fund accounts for the activities of the County's stormwater utility operations.

The Lady's Island Airport fund accounts for the activities of the County's airport operations on Lady's Island.

The Hilton Head Island Airport fund accounts for the activities of the airport's operations on Hilton Head Island.

The County reports the following internal service fund:

The garage fund accounts for the activities of the County's garage operations.

1. <u>Summary of Significant Accounting Policies – Continued:</u>

Additionally, the government reports the following fund types:

Special Revenue Funds

The special revenue funds are used to account for the proceeds of specific revenue sources (other than special assessments, or major capital projects) that are legally restricted or committed to expenditures for specified purposes other than debt service and capital projects.

Debt Service Funds

Debt service funds are used to account for the accumulation of restricted resources for, and the payment of, general long-term debt principal and interest.

Capital Projects Funds

Capital projects funds are used to account for financial restricted resources to be used for the acquisition or construction of major capital facilities.

Agency Funds

The agency funds account for monies held on behalf of school districts, special districts, and other agencies that use the County as a depository or property taxes are collected on behalf of the other governments. These funds are custodial in nature and do not involve measurement of results of operations.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's garage function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amount reported as *program revenues* include (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and *expenses* from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

BEAUFORT COUNTY, SOUTH CAROLINA NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2013

1. <u>Summary of Significant Accounting Policies – Continued:</u>

<u>Net Position</u> - Net position represents the difference between assets, liabilities and deferred inflows/outflows of resources. Net position invested in net capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition construction or improvements of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restriction imposed by creditors, grantors, laws, or regulations of other governments. Net position invested in net capital assets was as follows:

	Governmental		Business Type	
Net Capital Assets	\$ 450,241,580	\$	23,961,592	
Less: Current Portion of Long Term Debt	(16,217,962)	-	
Long-Term Obligations	(225,278,425)	-	
Add Unspent Bond Proceeds: Real Property Program	18,850,457		-	
Capital Projects Funds	8,209,453		-	
	\$ 235,805,103	\$	23,961,592	

Deferred outflows/inflows of resources – In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The government only has one item that qualifies for reporting in this category. It is the deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and special assessments. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

<u>Net position flow assumption</u> - Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

<u>Cash and cash equivalents</u> – The County's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Equity in Pooled Cash and Investments - The County maintains a pooled cash and investment account for all funds for accounting and investment purposes. This gives the County the ability to invest idle cash for short periods of time and to earn the most favorable available rate of return. The "equity in pooled cash and investments" represents the amount of pooled cash and investments owned by each fund of the County. Certain individual funds may reflect a cash deficit, from time to time. These cash deficits are not considered an equity transfer since the transfer has not been approved by County Council and is considered to be temporary in nature.

<u>Investments</u> - Investments consist of certificates of deposit and repurchase agreements. With the majority of the County's investments maturing in less than 1 year, all investments are recorded at cost, which approximates fair value.

1. <u>Summary of Significant Accounting Policies – Continued:</u>

<u>Receivables</u> - All receivables are reported at their gross value and when appropriate, are reduced by the estimated portion that is uncollectible.

Inventories - Inventories consist of fuels and supplies (enterprise funds) and are stated at the lower of "first-in, first-out" cost or market.

<u>Capital Assets</u> - Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is calculated on the straight-line basis starting in the month of purchase/completion over the following estimated useful lives:

Buildings	25 Years
Improvements	25 Years
Infrastructure	25 Years
Equipment	5 - 10 Years

In lieu of annual depreciation, the County has elected to use the "modified approach" for its infrastructure assets within its Hilton Head Island Airport and its Lady's Island Airport, which consists of reporting as required supplemental information (RSI) the current assessed condition of the assets pursuant to its runway, taxiway, and apron management system and the estimated annual amounts to maintain and preserve such assets along with actual amounts expensed during the period.

Long-Term Obligations – In the government-wide financial statements and proprietary funds financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable government activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The County has elected to early implement GASB 65 in regards to expending its bond costs when incurred. The face amount of debt issued is reported as bond proceeds. Premiums received on debt issuances are reported as interest on investments while discounts and issuance costs are reported as interest and fees expenditures.

<u>Compensated Absences</u> – The County accrues compensated absences and associated employee-related costs when earned by the employee. The general fund is used to liquidate the liability for non-proprietary fund accrued compensated absences.

<u>Due to and from Other Funds/Internal Balances</u> – Interfund receivables and payables in the fund financial statements and internal balances in the government-wide financial statements arise from interfund transactions and are recorded by all funds affected in the period in which transactions are executed. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

<u>Revenues</u> – Substantially all governmental fund revenues are accrued. Property taxes are billed and collected within the same period in which the taxes are levied.

Expenditures – Expenditures are recognized when the related fund liability is incurred.

BEAUFORT COUNTY, SOUTH CAROLINA NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2013

1. <u>Summary of Significant Accounting Policies – Continued:</u>

<u>Use of Estimates</u> – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the County's financial position and results of operations and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

<u>Budgets and Budgetary Accounting</u> - The County uses GAAP as the basis for its budgeting and uses the following procedures in establishing the budgetary data reflected in the financial statements:

- (1) The County Administrator submits to County Council, prior to June 1, proposed operating, special revenue, debt service, and capital improvement (CIP) budgets for the fiscal year commencing July 1. The operating, special revenue, debt service, and CIP budgets include proposed expenditures, revenues, and financing sources.
- (2) The Council requires such changes to be made as it deems necessary, provided the budget remains in balance and is subject to the notice of hearing requirements of Section 4-9-140 of the South Carolina Statutes.
- (3) Public hearings are held pursuant to Section 4-9-140 of the South Carolina Statutes in order for the Council to adopt the tentative and final budget.
- (4) Prior to July 1, the operating, special revenue, debt service and CIP budgets are legally enacted through passage of an ordinance setting forth anticipated revenues and appropriations by fund.
- (5) The County Administrator or his designee is authorized to transfer funds among operating accounts or among capital accounts within a department. All transfers over \$10,000 between departments and programs or between operating and capital accounts must be authorized by the Council in accordance with Section 4-9-140 of the South Carolina Statutes. In accordance with County Ordinance #2006/14, Section 12, amounts of \$10,000 or less can be approved by the Council Chairman and/or Council Finance Committee Chairman; transfers of \$5,000 or less can be approved by the County Administrator and/or his designee.
- (6) Formal budgetary integration is employed as a measurement control device for all governmental funds of the County. The legal level of budgetary control (i.e. the level at which expenditures may not legally exceed appropriations) is the department level. The County has legally adopted budgets for all funds with the exception of the following: Clerk of Court Discretionary, Sheriff's Restricted Drug Award Trust, Gift Store Program, Sheldon Rehabilitation Project, Library Trust, Library Special Trust, and the DSN Community Support Waiver funds.
- (7) Budgets for the governmental fund types are adopted on a basis consistent with generally accepted accounting principles.
- (8) Revenues in excess of the current budget ordinance may be expended as directed by the revenue source or for the purpose for which the funds were generated without further approval by County Council, as per Section 14 of County Ordinance #2006/14.
- (9) These financial statements have not been updated for subsequent events occurring after October 25, 2012, which is the date these financial statements were available to be issued.

2. Cash and Equity in Pooled Cash and Investments

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the County's deposits may not be returned. The County does not have a deposit policy for custodial credit risk. At June 30, 2013, the carrying amount of the County's deposits was \$34,380,996 and the bank balance was \$44,166,626. State law requires that all of the County's deposits be covered by FDIC insurance or by collateral held by the pledging financial institutions' trust department in the County's name. The County's deposits were fully insured or collateralized as of June 30, 2013.

Investments

As of June 30, 2013, the County has the following investments:

		Investment Maturities (in Years)					
Investment Type	Fair Value	Less than 1	1 - 5	21-25	26 - 30		
US Governmental Agency Obligations	\$ 80,926,460	\$ 76,030,145	\$ 3,653,286	\$ 259,570	\$ 983,459		
	80,926,460	76,030,145	3,653,286	259,570	983,459		
South Carolina Local Government Investment Pool	145,970,538	145,970,538					
	\$ 226,896,998	\$ 222,000,683	\$ 3,653,286	\$ 259,570	\$ 983,459		

Interest Rate Risk

The County strictly adheres to the State's investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The County strictly adheres to the State's investment policy that would further limit its investment choices. The fair value of the County's position in the South Carolina Local Government Investment Pool (LGIP) is the same as the value of pool shares. The regulatory oversight for the LGIP is the State of South Carolina. As of June 30, 2013, the underlying security ratings of the County's investment in the LGIP may be obtained from the LGIP's complete financial statements. LGIP is rated AA for long-term unsecured debt and A1+ for short-term notes by Standard & Poor's. These financial statements may be obtained by writing to the following address:

The State Treasurer's Office Local Government Investment Pool Post Office Box 11778 Columbia, SC 29211

The County's investments in U.S. Government Agency Obligations were rated AA by Standard & Poor's.

Concentration of Credit Risk

The County places no limit on the amount the County may invest in any one issuer. As of June 30, 2013, the County had investments with three issuers that exceeded 5% of total investments.

3. <u>Receivables/Due from Other Governments/Note Receivable</u>

All property taxes receivable are shown net of allowances for uncollectibles. The County considers all taxes to be collectible; therefore, no allowance for uncollectibles has been established.

The following details receivables -net by fund:

General Obligation Bonds

In June 2003, the County issued \$25,500,000 in general obligation bonds, bearing interest rates of 2.0% to 5.0% and with varying maturities through 2023. The proceeds of these bonds were used as follows: \$10,000,000 for the purchase of real property program as approved by referendum in November 2000, \$5,000,000 for paving and improving roads within the County, and \$10,500,000 for various County projects including the purchase of telecommunications equipment, improvements to various County parks, and for other governmental construction projects within the County. These bonds were fully retired during the 2013 fiscal year.

In November 2004, the County issued \$30,500,000 in general obligation bonds bearing interest rates of 3.0% to 5.0% and with varying maturities through 2025. The proceeds of these bonds were used as follows: \$20,000,000 for the purchase of real property program as approved by referendum in November 2000, and \$10,500,000 for various County projects including the purchase of various public works and public safety vehicles, improvements to various County parks, and for other governmental construction projects within the County.

In November 2006, the County issued \$17,500,000 in general obligation bonds bearing interest rates of 3.5% to 8.0% and with varying maturities through 2026. The proceeds of these bonds were used for various County projects.

In December 2006, the County issued \$30,000,000 in general obligation bonds bearing interest rates of 4.0% to 6.75% and with varying maturities through 2026. The proceeds of these bonds were used to "pay off" the County's bond anticipation notes of \$25,000,000 and provide additional funds for the construction of the Bluffton Parkway Project.

In September 2007, the County issued \$25,500,000 of general obligation bonds bearing interest rates of 4.0% to 5.0% and with varying maturity dates through 2027. \$20,000,000 of the proceeds of these bonds was used for the County's rural and critical lands projects, as approved by referendum in November 2006, and the remaining \$5,500,000 of the proceeds of these bonds was used for the Buckwalter Parkway extension.

5. Long-Term Obligations- Continued:

In October 2007, the County issued \$17,530,000 of general obligation refunding bonds bearing interest rates of 4.0% to 5.0% and with varying maturity dates through 2020. These refunding bonds provide resources to purchase U.S. Government State and Local Government Series Securities that were placed in an irrevocable trust for the purpose of generating resources for most future debt service payments on the 2001 County Bonds. As a result, the refunded bonds were considered to be partially defeased and the liability has been removed from the governmental activities column of the statement of net position. The reacquisition price exceeded the net carrying value of the old debt by \$809,915, as the transaction resulted in an economic gain of \$1,344,074. The 2001 County Bonds were fully retired during the 2011 fiscal year.

In March 2010, the County issued \$48,755,000 of general obligation bonds and Build America General Obligation Bonds bearing interest rates of 2.0% to 5.625% and with maturity dates through 2029. The proceeds of these bonds were used to pay off the related bond anticipation notes that were issued in March 2009. \$20,000,000 of the proceeds of the bond anticipation notes were used for the County's rural and critical lands projects and \$28,755,000 of the proceeds were used for various County projects.

In November 2010, the County issued \$8,125,000 of general obligation refunding bonds bearing interest rates of 2.0% to 4.0% and with varying maturity dates through 2022. The refunding bonds provide resources to purchase U.S. Government State and Local Government Series Securities that were placed in an irrevocable trust for the purpose of generating resources for most future debt service payments on the 2002 County Bonds. As a result, the refunded bonds are considered to be partially defeased and the liability has been removed from the governmental activities column of the statement of net position. The reacquisition price exceeded the net carrying value of the old debt by \$547,943, as the transaction resulted in an economic gain of \$420,749.

In December 2011, the County issued \$10,000,000 of general obligation bonds bearing interest rates of 2.0% to 3.5 % and with varying maturity dates through 2031. The proceeds of these bonds were used for the County's rural and critical lands projects, as approved by referendum in November 2006.

In January 2012, the County issued \$15,295,000 of general obligation refunding bonds bearing interest rates of 2.0% to 4.0% and with varying maturity dates through 2023. The refunding bonds provide resources to purchase U.S. Government State and Local Government Series Securities that were placed in an irrevocable trust for the purpose of generating resources for most future debt service payments on the 2003 County Bonds. As a result, the refunded bonds are considered to be partially defeased and the liability has been removed from the governmental activities column of the statement of net position. The reacquisition price exceeded the net carrying value of the old debt by \$1,400,206, as the transaction resulted in an economic gain of \$2,196,519.

In August 2012, the County issued \$25,185,000 of general obligation refunding bonds bearing interest rates of 2.0% to 5.0% and with varying maturity dates through 2025. The proceeds were used to advance refund \$27,050,000 of outstanding 2005 general obligation bonds which had interest rates ranging from 3.0% to 5.0%. The net proceeds of \$28,882,311 (including a \$3,938,020 premium and after payment of \$240,709 in underwriting fees and other issuance costs) were deposited in an irrevocable trust with an escrow agent to provide funds for the future debt service payments on the refunded bonds. As a result, the 2005 general obligation bonds are considered to be partially defeased and the liability has been removed from the governmental activities column of the statement of net position. The reacquisition price exceeded the net carrying value of the old debt by \$1,832,311, as the transaction resulted in an economic gain of \$4,316,298.

In October 2012, the County issued \$6,000,000 of general obligation bonds through the United States Department of Agriculture bearing an interest rate of 3.5% and with varying maturity dates through 2052. The proceeds of these bonds were used for the County's St. Helena Library project.

5. Long-Term Obligations- Continued:

In May 2013, the County issued \$7,580,000 of general obligation bonds bearing interest rates of 1.5% to 4.0% and with varying maturity dates through 2033. The proceeds of these bonds were used to pay off the related bond anticipation notes of \$2,500,000 and \$5,000,000 that were issued in May 2012 and October 2012, respectively.

In May 2013, the County issued \$25,000,000 of general obligation bonds bearing interest rates of 1.5% to 5.0% and with varying maturity dates through 2029. The proceeds of these bonds were used for the County's rural and critical land projects, as approved by referendum in November 2012.

In May 2013, the County issued \$33,150,000 of general obligation refunding bonds bearing interest rates of 1.5% to 5.0% and with varying maturity dates through 2026. The proceeds were used to advance refund \$11,250,000 and \$21,900,000 of outstanding 2006 and 2006B general obligation bonds which had interest rates ranging from 3.5% to 8.0% and 4.0% to 6.75%, respectively. The net proceeds of \$37,026,992 (including a \$4,174,601 premium and after payment of \$297,609 in underwriting fees and other issuance costs) were deposited in an irrevocable trust with an escrow agent to provide funds for the future debt service payments on the refunded bonds. As a result, the 2006 and 2006B general obligation bonds are considered to be partially defeased and the liability has been removed from the governmental activities column of the statement of net position. The reacquisition price exceeded the net carrying value of the old debt by \$3,876,919, as the transaction resulted in an economic gain of \$2,013,870.

The 2005, 2006, 2006B, 2007, 2007B, 2010A, 2010B, 2010C, 2011, 2012A, 2012C, 2012E, 2013A, 2013B and 2013C general obligation bonds are collateralized by the full faith and credit of the County and are payable from ad valorem taxes.

Monica Spells Beaufort County Compliance Officer

5. Long Term Obligations – Continued:

General obligation bonds accounted for in the County's Statement of Net Position consist of the following at June 30, 2013:

Description	Rates	Dates	Maturity	Original Issue	Outstanding at June 30, 2013

Total interest paid on bonds outstanding for the year ended June 30, 2013 was \$6,815,433.

5. Long Term Obligations – Continued:

Tax Increment Financing Revenue Bonds

In December 2002, the County issued \$40,000,000 in Tax Increment Financing Revenue Bonds for the New River TIF District, bearing interest rates of 3.0% to 5.5% and with varying maturities through 2027. The proceeds of these bonds were used to provide infrastructure and other improvements within the Tax Increment Financing District, including buildings for both the University of South Carolina – Beaufort and the Technical College of the Lowcountry, which the County owns. These bonds were retired during the 2013 fiscal year.

In November 2003, the County issued \$23,680,000 in Tax Increment Revenue Bonds for the Bluffton TIF District, bearing interest rates of 2.0% to 5.0% and with varying maturities through 2028. The proceeds of these bonds were used to pay the outstanding bond anticipation note and to provide infrastructure improvements within the Tax Increment Financing District. These bonds were retired during the 2013 fiscal year.

In January 2013, the County issued \$5,685,000 in Tax Increment Revenue Refunding Bonds for the Bluffton TIF District, bearing an interest rate of 1.42% and with varying maturities through 2019. The refunding bonds provide resources to purchase U.S. Government State and Local Government Series Securities that were placed in an irrevocable trust for the purpose of generating resources for most future debt service payments on the Bluffton TIF District. As a result, the refunded bonds are considered to be partially defeased and the liability has been removed from the governmental activities column of the statement of net position. The transaction resulted in an economic gain of \$864,271.

Tax increment revenue bonds accounted for in the County's Statement of Net Position consist of the following at June 30, 2013:

Description		Rates	D	ates	 Maturity	C	riginal Issue	itstanding at ne 30, 2013
Bluffton - County TIF Bonds	۲	1.42%	2/1 a	and 8/1	2019	\$	5,685,000 5,685,000	\$ 5,685,000 5,685,000

A schedule of the debt service requirements associated with the tax increment financing revenue bonds is as follows:

Fiscal Year Ending	Principal	incipal		Total		
2014	\$ 745,000	\$	80,951	\$	825,951	
2015	950,000		70,148		1,020,148	
2016	695,000		56,658		751,658	
2017	885,000		46,789		931,789	
2018	1,090,000		34,222		1,124,222	
2019	 1,320,000		18,744		1,338,744	
Total	\$ 5,685,000	\$	307,512	\$	5,992,512	

Total interest paid on bonds outstanding for the year ended June 30, 2013 as \$1,928,950.

For the payment of the principal and interest on the bonds as they respectively mature and for the creation of such sinking fund as may be necessary therefore, the full faith, credit and taxing power of the County are irrevocably pledged and there shall be levied annually by the County auditor and collected by the County treasurer in the same manner as other County taxes are levied and collected, as tax, without limit, on all taxable property in the County sufficient to pay the principal and interest of the bonds as they respectively mature and to create such sinking fund as may be necessary therefore.

5. Long Term Obligations – Continued:

Total Governmental Activities Debt

A schedule of the debt service requirements associated with the total governmental activities debt is as follows:

Fiscal Year Ending	Principal	Interest			Total
2014	\$ 14,280,980	\$	8,083,875	\$	22,364,855
2015	12,778,464		7,979,358		20,757,822
2016	13,381,036		7,557,671		20,938,707
2017	14,448,697		6,953,441		21,402,138
2018	15,371,451		6,430,920		21,802,371
2019-2023	81,502,066		23,106,028		104,608,094
2024-2028	50,826,914		8,238,763		59,065,677
2029-2033	18,337,684		2,207,830		20,545,514
Thereafter	 3,992,708		1,626,892		5,619,600
Total	\$ 224,920,000	\$	72,184,778	\$	297,104,778

Bond Anticipation Notes

In May 2012, the County issued \$2,500,000 in Bond Anticipation Notes bearing an interest rate of 1.5% and with a maturity date of May 10, 2013. The County refinanced the Bond Anticipation Notes into General Obligation Bonds in fiscal year 2013.

In October 2012, the County issued \$5,000,000 in Bond Anticipation Notes bearing an interest rate of 1.5% and with a maturity date of May 10, 2013. The County refinanced the Bond Anticipation Notes into General Obligation Bonds in fiscal year 2013.

Governmental Activities Changes in Long-Term Obligations

	Ba	lance June 30, 2012		Additions		Retirements	Ba	lance June 30, 2013
General Obligation Bonds	\$	190,915,000	\$	96,915,000	\$	68,595,000	\$	219,235,000

5. Long Term Obligations – Continued:

Current Portion of Long Term Obligations

The current portion of long term obligations is computed as follows:

General Obligation Bonds TIF Revenue Bonds Premiums	\$ 13,535,980 745,000 1,936,982
	\$ 16,217,962
Deferred Charge on Refundings	\$ 487,449

The current portion of deferred charges on refundings expected to be amortized through interest expense during fiscal year 2014 is \$487,449.

6. <u>Accrued Compensated Absences</u>

The County considers accrued compensated absences to be reported as a current and long term liability. For governmental activities, compensated absences payable are liquidated by the general fund.

Governmental Activities Changes in Current and Long -Term Obligations

Bala	ance June 30,					Bala	ance June 30,	Am	ount Due in

7. Interfund Transfers/ Due to General Fund

Interfund transfers (in/out) were used to move resources to/from other funds in accordance with budgetary authorizations, or other requirements. These transfers were permanent in nature and as such there are not any anticipated repayments. The following interfund transfers were made during the year ended June 30, 2013.

Recipient Fund	Transferring Fund	Amount
General Fund	General Fund	8,233
General Fund	Nonmajor Special Revenue Funds	1,648,463
County Wide General Obligation Bonds	Nonmajor Special Revenue Funds	6,699,639
County Wide General Obligation Bonds	Nonmajor Debt Service Funds	393,850

Nonmajor Special Revenue Funds	Nonmajor Special Revenue Funds	128,548
Nonmajor Special Revenue Funds	Nonmajor Capital Projects Fund	1,970,156
Nonmajor Debt Service Funds	Nonmajor Special Revenue Funds	2,227,950
Nonmajor Capital Projects Fund	Nonmajor Special Revenue Funds	1,153,050
Nonmajor Capital Projects Fund	Nonmajor Capital Projects Fund	5,007,424
· · · ·	· · ·	\$27,323,615

Due to General Fund

Due to general fund also included \$1,413,837 at June 30, 2013 for advances for certain operating expenses of the airport enterprise funds. These advances totaled \$362,852 to the Lady's Island Airport and \$1,050,985 to the Hilton Head Island Airport.

8. <u>Operating Leases</u>

The County leases certain office space and machinery and equipment under cancelable operating leases. Under the terms of the lease agreements, the County's obligation to continue rental obligations is contingent upon the continued appropriation of funds by the County for that purpose. Total rental expenses for the year ended June 30, 2013 were approximately \$466,000.

The following is a schedule of minimum commitments for operating lease payments:

Fiscal Year Ending	Amount
2014	\$ 260,206
2015	160,852
2016	111,255
2017	42,507
2018	10,557
2019-2026	9,133
Total	\$ 594,510

9. Deferred Compensation Plans

All state and local government employees can participate in a deferred compensation plan created in accordance with Internal Revenue Code 457. The plan, administered by the state public employee retirement system through a state approved nongovernmental third party, permits governmental employees to defer a portion of their salary until future years. The deferred compensation is not available to an employee until termination, retirement, death, or unforeseeable emergency. Contributions by employees under the 457 program totaled \$284,024 for the year ended June 30, 2013. There are no employer contributions made by the County to this plan. Participant account balances are not included in these financial statements.

County employees may participate in a 401(k) or a Roth 401(k) deferred compensation plans available to state and local governmental employees through the state public employee retirement system. The 401(k) and Roth 401(k) programs are administered by a state approved nongovernmental third party. Contributions by employees under the 401(k) and Roth 401(k) programs totaled \$739,526 and \$18,910, respectively, for the year ended June 30, 2013. There are no employer contributions made by the County to these plans. Participant account balances are not included in these financial statements.

10. Retirement Plans

The Governmental Accounting Standards Board (GASB) issued Statement No. 27 entitled Accounting for Pensions by State and Local Government Employees in November 1994. This Statement was amended with the issuance of GASB Statement No. 50 entitled Pension Disclosures- an amendment of GASB Statements No. 25 and No. 27 in May 2007. The following information is provided in order to meet the disclosure requirements prescribed in paragraph 20 of GASB 27 and paragraph 7 of GASB 50.

Substantially all full time, permanent County employees are required by law (Title 9 of the S. C. Code of Laws) to participate in statewide cost sharing multiple-employer defined benefit pension plans administered by the State Retirement System. Generally all employees, with the exception of law enforcement personnel and certain others, participate in the South Carolina Retirement System (SCRS). Law enforcement personnel and certain other employees participate in the South Carolina Police Officers Retirement System (PORS).

Both the South Carolina Retirement System and Police Officers Retirement System offer retirement and disability benefits, cost of living adjustments on an ad-hoc basis, life insurance benefits, and survivor benefits. The Plans' provisions are established under Title 9 of the SC Code of Laws.

A Comprehensive Annual Financial Report containing financial statements and required supplementary information for the South Carolina Retirement System and Police Officers Retirement System is issued and publicly available by writing the South Carolina Retirement System, P.O. Box 11960, Columbia, SC 29211-1960.

Actuarially established employer contribution rates are as follows:

Retirement		Unfunded	Accidental	Group Life Insurance	
Program	Normal	Accrued Liability	Death Program	Program	Total
SCRS	4.57%	5.88%	N/A	0.15%	10.60%
PORS	7.81%	4.09%	0.20%	0.20%	12.30%

Contribution rates are developed by the SCRS and PORS using the entry age normal cost method. The normal contribution rate to cover current cost has been determined as a level percentage of payroll. A market related value of plan assets is used for actuarial valuation purposes. Gains and losses are reflected in the unfunded accrued liabilities that are being amortized by regular annual contributions as a level percent of payroll within a 30 -year period, assuming 7.5% annual payroll growth for SCRS and PORS.

10. <u>Retirement Plans- Continued:</u>

All employers contribute at the actuarially required contribution rates.

Contribution Information	SCRS	PORS
Covered Payroll	\$ 32,729,330	\$ 17,807,781
Employee Contributions	2,287,982	1,244,857
Employee Contribution Rate (Based upon Salary)	7.00%	7.00%
Employer Contribution Rate; Includes Group Life Coverage in Both		
SCRS and PORS and Accidnetal Death Coverage in PORS (Based		
upon Salary)	10.60%	12.30%

The County's employer contribution to the SCRS for the years ended June 30, 2013, 2012 and 2011 were \$3,469,387, \$3,047,690, and \$3,232,140, respectively, which are equal to the required contributions.

The County's employer contribution to the PORS for the years ended June 30, 2013, 2012 and 2011 were \$2,190,357, \$2,056,075, and \$2,049,754, respectively, which are equal to the required contributions.

Vesting Requirements:

With five years of service, an employee is entitled to a deferred annuity commencing at age 65 under SCRS and at age 55 under PORS.

Retirement Benefits:

Retirement benefits of participants in the SCRS and the PORS are currently determined as follows:

SCRS – The maximum monthly retirement allowance at age 65 or 28 years' service is generally determined by the following formula:

- Total 12 highest consecutive quarters of salary (divide by 3).
- Multiply the amount by 1.82%.
- Multiply the results by the total months of creditable service.
- Divide results by 12.
- PORS The retirement benefit at age 55 or 25 years' service is generally determined consistent with the aforementioned SCRS formula, except that the average salary is multiplied by 2.14% for Class II members.

Monica Spells Beaufort County Compliance Officer

10. <u>Retirement Plans – Continued</u>:

Early Retirement - SCRS

Age	Service Required	Early Retirement Penalty
At Least 60	None	5% for Each Year of Age Under 65
55	25 Years	4% for Each Year of Service Under 28

Full formula retirement is available with 28 years of service, regardless of age, or age 65.

There are no early retirement provisions under PORS. A member must have 25 years of service for full retirement or must be age 55 with 5 years of service. Both criteria provide for full formula benefit with no reduction.

Employees eligible for service retirement may participate in the Teacher and Retiree Incentive Program (TERI). TERI participants may retire and begin accumulating retirement benefits on a deferred basis without terminating employment for up to five years. Upon termination of employment or at the end of the TERI period, whichever is earlier, participants will begin receiving monthly service retirement benefits which will include any cost of living adjustments granted during the TERI period. Because participants are considered retired during the TERI period, they do not earn service credit, and are ineligible to receive group life insurance benefits or disability retirement benefits. Effective July 1, 2006, TERI participants who entered the program before July 1, 2005 do not have to contribute SCRS as long as they are covered under the TERI program.

Disability Retirement

In order to receive Disability Retirement benefits, an employee must have 5 years of credited service unless the injury is job related.

Recipients receive a service retirement benefit based upon continued service to age 65 for SCRS and to age 55 for PORS with no change in compensation.

Accidental Death Program

Under this provision of the PORS, an annuity is provided to the surviving spouse (or the specified beneficiary) of a member whose death was while in performance of duty. The annuity would equal 50% of members' compensation at the time of death.

Group Life Insurance Benefits

A lump-sum payment equal to one year's salary is payable to the beneficiary upon the death of an active member with at least one year of service. There is no service requirement for death resulting from actual performance of duties. Lump-sum payments of up to \$6,000 (SCRS and PORS) are payable to a retiree's beneficiary based upon years of service at retirement.

Withdrawal of Employee Contribution

Accumulated contributions and credited interest payable are paid within 6 months but not less than 90 days after termination of all covered employment.

10. <u>Retirement Plans – Continued</u>:

Post Retirement Increases

Annual increases in retirement benefits are calculated at the lower of the Consumer Price Index for Wage Earners and Clerical Workers (CPI-W) for the prior calendar year or 2%. Increases are approved annually subject to compliance with funding policy.

Statewide Plan Actuarial Information

The South Carolina Retirement Systems do not determine separate measurements of assets and pension benefit obligations for individual employers. An actuarial valuation is performed for the systems annually. No changes in actuarial assumptions or benefit provisions have occurred subsequent to July 1, 1995. The interest rate assumption for actuarial purposes is 8%. An assumption of future COLA adjustments was removed (SCRS and PORS) and the method of valuing assets was changed from book value to a smoothed market value.

The Systems use a projected benefit method for actuarial valuation with level percentage entry age, normal cost and open-end unfunded accrued liability. At July 1, 2012, based upon the actuarial method used for funding purposes:

	SCRS	PORS
Unfunded Accrued Liability	\$ 13,917,000,000	\$ 1,549,000,000
Liquidation Period	29 Years	30 Years

11. Other Post Employment Benefits (OPEB)

Plan Description

The County provides post-retirement health, life and dental care benefits, as per the requirements of a local ordinance, for certain retirees. Its plan is a single-employer defined benefit plan. Substantially all employees who retire under the State retirements plans are eligible to continue their coverage with the County paying 100% of the premium for those with 28 or more years of service, 75% of the premium for those with 20 years to 27 years of service and 50% of the premium for those with 15 years to 20 years of service. On June 9, 2008, the County closed these benefits to all employees hired after June 9, 2008. As of June 30, 2013 there were 119 employees who had retired with the County and were receiving health insurance benefits.

Funding Policy

The contribution requirements of plan members and the County are established and may be amended by the County. The required contribution is currently based on pay-as-you-go financing requirements. For the year ended June 30, 2013, the County recognized expenditures of \$10,926,820 for current healthcare premiums.

Annual OPEB Cost and Net OPEB Obligation

The County's annual OPEB cost is calculated based on the *annual required contribution of the employer* (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The following table shows the components of the County's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the County's net OPEB:

11. Other Post Employment Benefits (OPEB) – Continued:

	Governmental		В	usiness-Type
Normal Cost for Current Year	\$	3,409,456	\$	135,552
Amortization of Unamortized Accrued Liability		2,242,835		89,165
Annual Required Contribution (ARC)		5,652,291		224,717
Interest on Net OPEB Obligation		837,697		33,303
Adjustment to Annual Required Contribution		(805,197)		(32,011)
Annual OPEB Cost		5,684,791		226,009
Contributions Made		(580,906)		(23,094)
Increase in Net OPEB Obligation		5,103,885		202,915
Net Obligation - Beginning of Year		18,502,584		852,624
Net Obligation - End of Year	\$	23,606,469	\$	1,055,539

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the 2013 fiscal year were as follows:

			Percentage of	
			Annual OPEB Cost	Net OPEB
Fiscal Year	Ann	ual OPEB Cost	Contributed	Obligation
2013	\$	5,910,800	10.22%	\$ 24,662,008
2012		5,235,000	14.25%	19,355,208
2011		5,203,502	4.69%	14,866,208
2010		4,215,507	12.30%	9,906,633
2009		3,601,597	21.48%	6,209,805
2008		3,381,788	0.00%	3,381,788

Funded Status and Funding Progress

As of June 30, 2013, the most recent actuarial valuation date, the plan was 0.0% funded. The actuarial accrued liability for benefits was \$48.1 million, resulting in an unfunded actuarial accrued liability (UAAL) of \$48.1 million. Also, the unfunded actuarial accrued liability is being amortized by an open or rolling amortization period (with re-amortization of the UAAL in each valuation), absent actuarial gains. As such, the UAAL amount will never be fully eliminated. The covered payroll (annual payroll of active employees covered by the plan) was \$48,921,474, and the ratio of the UAAL to the covered payroll was 101.7 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funding status of the plan and annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Funded Status and Funding Progress

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

11. Other Post Employment Benefits (OPEB) – Continued:

In the June 30, 2013 actuarial valuation, the projected unit credit method was used. The actuarial assumptions included a 4.50% investment rate of return (net of administrative expenses), which is the blended rate of the expected long-term investment returns on plan assets on the County's own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 9.0% in 2013 decreasing to the ultimate rate of 5.0% in 2023. Also, the actuarial assumptions included a 3.5% annual salary rate increase and 3.0% for an annual inflation rate. The UAAL is being amortized via the level percentage method, which amortizes the UAAL as a constant percent of payroll. The remaining amortization period at June 30, 2013 was 26 years.

12. Accrued Compensated Absences and Other Benefits

Effective February 15, 1993, Beaufort County adopted a new leave policy for all employees. The TOWP/SCA policy was replaced with a policy granting Personal Leave Days and Personal Disability Leave. Under the new policy, employees were entitled to a maximum Personal Leave balance of 280 hours. Upon termination, employees will be paid for all unused, unpaid Personal Leave up to this maximum. The liability recorded at June 30, 2013, to cover unused, unpaid Personal Leave including fringe benefits totaled \$3,207,105.

The County reports \$357,857 as a current liability and \$2,753,942 as a long-term liability for governmental activities, while \$10,960 as a current liability and \$84,346 as a long-term liability for business-type activities.

All leave hours accrued in excess of this Personal Leave maximum were accrued to the employee's Personal Disability leave account. A maximum of 360 hours may be maintained in an employee's Personal Disability leave account. The only accrual to this balance occurs when an employee's Personal Leave account exceeds 280 hours, at which time excess hours are "rolled over" to the Personal Disability leave account. Personal Disability leave is to be used in the case of an extended or life threatening illness. This account can only be used once all accrued hours in the Personal Leave account have been used to a balance of 80 hours or less. The employee must present a doctor's statement verifying the disability or illness in order to utilize his/her Personal Disability leave. Employees with remaining SCA leave balances may retain those balances. The same rules governing the use of Personal Disability leave apply to the use of SCA leave. Upon termination of employment with Beaufort County, no payment for any unused SCA or Personal Disability leave will be made.

The County does not provide post employment health care benefits except those mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

13. Fund Balances

As prescribed by GASB Statement No. 54, governmental funds report fund balance in classifications based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. As of June 30, 2013, fund balances for government funds are made up of the following:

• Nonspendable Fund Balance includes amounts that are (a) not in spendable form, or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example: inventories, prepaid amounts, and long-term notes receivable.

13. <u>Fund Balances – Continued:</u>

- Restricted Fund Balance includes amounts that can be spent only for the specific purposes stipulated by external resource providers, constitutionally or through enabling legislation. Restrictions may effectively be changed or lifted only with the consent of the resource providers.
- Committed Fund Balance includes amounts that can only be used for the specific purposes determined by a formal action of the County's highest level of decision-making authority, County Council. Commitments may be changed or lifted only by the County taking the same formal action that imposes the constraint originally.
- Amounts in the assigned fund balance classification are intended to be used by the County for specific purposes but do
 not meet the criteria to be classified as committed. County Council has by resolution authorized the County Administrator
 to assign fund balance. County Council may also assign fund balance as it does when appropriating fund balance to cover
 a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments,
 assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for
 the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or
 revise a commitment.
- Unassigned Fund Balance is the residual classification for the General Fund and includes all amounts not contained in the other classifications. Unassigned amounts are technically available for any purpose.

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is generally depleted in the order of restricted, committed, assigned, and unassigned.

Beaufort County Council is the County's highest level of decision-making authority that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

The County considers restricted amounts to have been spent when an expenditure is incurred for the purposes for which both restricted and unrestricted amounts are available. When an expenditure is incurred for which committed, assigned, or unassigned amounts could be used, the County considers expenditures to be used in this respective order.

As of June 30, 2013, Beaufort County Council had not established an unassigned fund balance target.

14. Commitments and Contingencies

On July 11, 1994, the County entered into a 20 year lease agreement with the General Services Administration of the U. S. Government (GSA) for the use of the former Beaufort County Courthouse building by GSA as a Federal Courthouse. Under this agreement, the County renovated the building in accordance with GSA specifications at an approximate cost of \$1,933,744. Financing has been arranged for the funding of these costs and the County has assigned all rights and interest in the lease payments from GSA to the lender. The terms and required payments on the lease are the same as the terms and required payments on the loan. After the payment of the loan and the end of the lease term, the asset will remain as property of the County.

Arbitrage rules - State and local bonds issued after 1984 are subject to arbitrage restrictions as enacted by the Federal Government. To retain the bonds' tax exempt status, local governments must comply with the regulations as adopted by the government expend all of the bond proceeds within designated periods which could be up to three years. The County believes it is in compliance with all arbitrage rules.

As of June 30, 2013, the County has outstanding construction contracts of \$54,649,366.

15. Risk Management and Litigation

The County is exposed to various risks of losses related to torts; thefts of; damage to and destruction of assets; errors and omissions; injuries to employees; and natural disaster. The County manages risk through employee educational and prevention programs and through the purchase of casualty and liability insurance. All risk management activities are accounted for in the General Fund.

For all of these risks, the County is a member of the State of South Carolina Insurance Reserve Fund, a public entity risk pool currently operating as a common risk management and insurance program for local governments. The County pays an annual premium to the State Insurance Reserve Fund for its insurance coverage. The State Insurance Reserve Fund is self-sustaining through member premiums and reinsures through commercial companies for certain claims.

Expenditures and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonability estimated. In determining claims, events that might create claims, but for which none have been reported are considered.

The County is a party to several lawsuits which seek to recover property taxes paid under protest and to overturn property sold at "tax sales." The County's attorney estimates that the amount of actual or potential claims against the County at June 30, 2013 will not materially affect the financial conditions of the County. Therefore, the General Fund contains no provision for estimated claims.

The County has not significantly reduced insurance coverage from the previous year nor has it settled claims in excess of insurance coverage for the last three years that were material.

BEAUFORT COUNTY, SOUTH CAROLINA REQUIRED SUPPLEMENTARY INFORMATION SCHEDULE OF FUNDING PROGRESS FOR THE RETIREE HEALTH PLAN June 30, 2013

BEAUFORT COUNTY, SOUTH CAROLINA REQUIRED SUPPLEMENTARY INFORMATION MODIFIED APPROACH FOR AIRPORT INFRASTRUCTURE ASSETS June 30, 2013

Beaufort County's airports infrastructure assets consist of approximately 25% airport runways, 25% airport taxiways, and 50% airport aprons. The condition of the runways, taxiways, and aprons is measured using several distress factors found in pavement surfaces. The airports' pavement management system uses a measurement scale that is based on a condition index. For the Lady's Island Airport, the South Carolina Aeronautics Commission (SCAC) condition scale is used to classify runways, taxiways, and aprons. The SCAC condition scale is as follows: good or better condition (70 - 100), fair condition (50 - 69), and substandard condition (less than 50). For the Hilton Head Island Airport, the Federal Aviation Administration (FAA) condition scale is used to classify runways, taxiways, and aprons. The FAA condition scale is as follows: excellent condition (5), good condition (4), fair condition (3), poor condition (2), and failed condition (1). It is the County's policy to maintain the runways, taxiways, and aprons at a fair condition or better. Condition assessments are determined every year by the County at both airports, the SCAC at the Lady's Island Airport, and the FAA at the Hilton Head Island Airport. The County's runways, taxiways, and aprons have an estimated useful life, without resurfacing, of 25 years. Due to the strong safety concerns of airplanes landing, taking off, and taxiing on these surfaces, all surfaces are repaired immediately if and when there is a need for such repairs.

Actual maintenance of runways, taxiways, and aprons involves scraping and providing improved surface materials on an as needed basis or filling cracks within the pavement on an as needed basis.

	FY 2013	FY 2012
Percent of Runways in Fair or Better Condition	100%	100%
Percent of Taxiways in Fair or Better Condition	100%	100%
Percent of Aprons in Fair or Better Condition	100%	100%
Percent of Annual Resurfacing of Runways Completed	0%	0%
Percent of Annual Resurfacing of Taxiways Completed	0%	0%
Percent of Annual Resurfacing of Aprons Completed	0%	0%

The County estimates maintenance expense in the amount of \$650,000 to be incurred every five (5) years for paving costs in order to maintain and preserve at (or above) the condition level established and disclosed above. The County adopted the modified approach for its airport infrastructure assets in fiscal year 2011. There were no actual maintenance and preservation costs for fiscal years 2011, 2012 and 2013.

Subtotal of Overlapping Debt		485,650,867		485,650,867	
Beaufort County Direct Debt				 241,496,387	
Total of Direct and Overlapping Debt				\$ 727,147,254	

Source: Debt outstanding provided by each governmental unit.

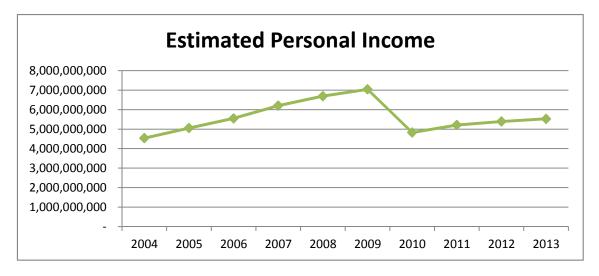

Note: As all of this debt is within Beaufort County, the percentage of applicable debt to the County is 100%. This process recognizes that, when considering the County's ability to issue long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore, for repaying debt of each overlapping government.

BEAUFORT COUNTY, SOUTH CAROLINA DEMOGRAPHIC AND ECONOMIC STATISTICS LAST TEN FISCAL YEARS

BEAUFORT COUNTY, SOUTH CAROLINA NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS For the Year Ended June 30, 2013

Note 1 - Basis of presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Beaufort County, South Carolina, (the "County"), and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Note 2 - Non-cash awards

The County did not receive non-cash federal awards during the year ended June 30, 2013.

Note 3 - Subrecipients

Of the federal expenditures presented in the schedule, the County provided federal awards to subrecipients as follows:

CFDA Number	Program Name	Amounts Provided <u>to Subrecipients</u>
14.239	Lowcountry Regional HOME Consortium	\$539,028
14.228	Burton Water Extension	\$ 9,114

Josh Whiteside Beaufort County Resident

Report of Independent Auditor on Internal Control Over Financial Reporting and on Compliance and Other matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Beaufort County Council Beaufort County, South Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Beaufort County, South Carolina (the "County") as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated January 31, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Augusta, Georgia January 31, 2014

Report of Independent Auditor on Compliance with Requirements for Each Major Program and on Internal Control over Compliance Required by OMB Circular A-133

Beaufort County Council Beaufort County, South Carolina

Report on Compliance for Each Major Federal Program

We have audited Beaufort County, South Carolina's (the "County) compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2013. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion. However, our audit does not provide a legal determination of the County's compliance with those requirements.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the County's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we identified a deficiency in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2013-01 that we consider to be a significant deficiency.

The County's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Dollar threshold used to distinguish between type A and type B programs: \$300,000.

Qualified as low-risk auditee? _____ yes X___ no

BEAUFORT COUNTY, SOUTH CAROLINA

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

FOR THE YEAR ENDED JUNE 30, 2013

Section II. Findings in relation to the Audit of the Financial Statements

None reported.

Section III. Federal Awards Findings and Questioned Costs

Item 2013-01

Federal Agency:	U.S. Department of Agriculture
Pass-through Entity:	South Carolina Department of Social Services
Federal Program:	CFDA #10.559 – Summer Service Food Program for Children
Award #:	SF-133
Compliance Requirement:	Allowable Costs
Type of finding:	Significant Deficiency in Internal Control

CRITERIA

Program requirements state that program expense reimbursement is based on the number of actual allowable meals served to participants. Meal site supervisors must be properly trained to accurately complete meal count forms. The program coordinator should review the meal count calculations before preparing claims for reimbursement.

CONDITION

On July 16, 2013 and August 5, 2013, the South Carolina Department of Social Services (SCDSS) conducted a technical visit assistance and compliance review for the program. SCDSS performed meal observations at various meal sites. It was determined that the sites were not properly conducting and recording the meal services.

CONTEXT

The County does not have proper procedures in place to train site supervisors on how to conduct meal service and document meal records.

<u>EFFECTS</u>

Inaccurate meal counts could result in disallowance of costs charged to the federal grant program.

RECOMMENDATION

We recommend the County strengthen is internal controls over training of supervisors and implement policies and procedures to ensure accurate meal count claims are submitted.

MANAGEMENT'S RESPONSE

We agree with the auditor's comments. We have implemented policies and procedures to ensure sufficient training of supervisors. Site supervisors will have to attend a mandatory training before conducting a meal service. During this training the site supervisor handbook and all forms will be explained. Training will be at various locations at several different times and will include hands-on examples. South Carolina Department of Social Services will also be asked to assist in training. Monitors will be fully trained in all aspects of the program requirements and regulations and will be required to conduct on-site training when necessary.

BEAUFORT COUNTY, SOUTH CAROLINA

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS AND QUESTIONED COSTS

FOR THE YEAR ENDED JUNE 30, 2013

Findings in Relation to the Audit of the Financial Statements

Item 2012-1

Material Weakness

CRITERIA

Internal controls should be in place that will provide reasonable assurance that defeased debt and related escrow funds will not remain as assets and liabilities, respectively, in the County's financial statements.

CONDITION

In November 2010, the County refunded approximately \$8.1 million of its 2002 general obligation bonds in order to reduce its total debt service payments. The proceeds of the refunding bonds were used to purchase securities that were placed in escrow to generate resources for debt service payments on the 2002 bonds. In May 2012, it was noted that although the 2002 bonds were considered to be defeased, they continued to be reported (along with the escrowed securities) on the County's statement of net assets as of June 30, 2011. In addition, the County noted that it had not previously recorded and amortized premiums and discounts related to bond issuances.

<u>CAUSE</u>

The County served as its own paying agent for it 2002 general obligation bonds. Just before final payment was due on these bonds, the County received the monies held in escrow from the financial institution. These funds were deposited into the County's main operating bank account and the final payment due on these bonds was subsequently issued. The County accounted for this inflow and outflow of cash on its general ledger since they were accounted for in its main operating bank account.

<u>EFFECT</u>

Cash and fund balance as reflected in the County-wide general obligation bonds fund financial statements and total net assets as reflected in its government-wide financial statements were overstated by approximately \$8.1 million and \$5.8 million, respectively.

RECOMMENDATION

Administration has informed us that for future transactions, the County has implemented procedures to ensure that defeased debt and related escrowed funds will not remain assets and liabilities, respectively, in the County's financial statements. It has also informed us that it has implemented procedures to record the unamortized portion of the premiums and discounts on all outstanding bonds. We recommend that this effort include ensuring that defeased debt and related escrow balances are removed from the general ledger, and that a third party is both the escrow agent and the paying agent in all future refunding transactions. Furthermore, we recommend that premiums and discounts related to future bonds be recorded at issuance and then amortized and charged to interest expenses over the period of time that the bonds are outstanding.

BEAUFORT COUNTY, SOUTH CAROLINA SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS AND QUESTIONED COSTS

FOR THE YEAR ENDED JUNE 30, 2013

MANAGEMENT'S RESPONSE

As stated above to prevent these issues in the future, the County has implemented new policies, including the hiring of an outside paying agent for all County bonds in August 2012 to prevent the County from having to account for escrow transactions.

CURRENT STATUS

Finding has been corrected.

Federal Awards Findings and Questioned Costs

Item 2012-2 – Child Support Enforcement; CFDA No. 93-563; Grant Period – Fiscal Year Ended June 30, 2012

CRITERIA

All charges to the federal funds provided by the South Carolina Department of Social Services contract for salaries and wages will be documented by the Clerk of Court on payrolls completed in accordance with the County's generally accepted practices and approved by the appropriate responsible official of the County.

CONDITION

The Division Chief of Family Court approved her own timesheets for the hours worked on making collection and disbursement efforts of child support monies.

<u>CAUSE</u>

The Clerk of Court's Office does not have segregation of duties procedures in place to ensure that timesheets are prepared by the staff and approved by the Clerk of Court.

<u>EFFECT</u>

Hours documented for the amount of time spent on collecting and disbursing child support monies may not be accurate and the cost of receiving federal assistance may be disallowed.

<u>CONTEXT</u>

A sample of twenty-four expenditures totaling \$99,152 was selected for testing from the Child Support Enforcement Title IV-D Transaction Reimbursement Fund, in which total expenditures for the current fiscal year amount to \$297,196. Of the sample of twenty-four expenditures selected for testing, eighteen related to payroll transactions for all employees working on family court matters. Our test discovered that all eighteen of these payroll transactions included timesheets in which the Division Chief of Family Court recorded and approved her own time.

BEAUFORT COUNTY, SOUTH CAROLINA

SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS AND QUESTIONED COSTS

FOR THE YEAR ENDED JUNE 30, 2013

RECOMMENDATION

We recommend that the Clerk of Court's Office implement a policy that states that all timesheets must be approved by the Clerk of Court.

MANAGEMENT'S RESPONSE

As of October 2012, the Clerk of Court signs off on all timesheets to prevent any employee from signing off on his or her own time.

CURRENT STATUS

Finding has been corrected.

History of the Beaufort County Seal

The county is one of the oldest forms of local government in the United States. Early settlers from England brought the tradition of county government to America. Today, well over 3,000 county governments provide services that affect almost every citizen's life. South Carolina's 46 counties are representative of how county government has evolved nationally.

The county unit in South Carolina was traditionally regarded as a local extension or branch of the state government. As such, county responsibilities and authority were restricted to a few basic activities, such as maintaining roads and bridges, and keeping public records; but a state constitutional reform movement in the early 1970s led to the South Carolina General Assembly passing the Local Government Law, also known as the Home Rule Act, in 1975.

The Home Rule Act greatly expanded county authority and changed the nature of county organization and administration to what we know today. Beaufort County went from having a board of directors to a county council. As the new council sought to distinguish itself, council members desired an official symbol that would represent the **jurisdiction's identity and unique character**.

Members of the 1975 Beaufort County Council appointed an ad hoc seal committee to undertake the task and carry out a contest for the best Beaufort County seal design. The winner of the contest was an artist from Hilton Head **Island. County Council approved the seal committee's recommendation of a design which reflected the legacy of** outdoor beauty, culture and history that help to define important aspects of life in Beaufort County.
