This photo was taken at the Gay Seafood Company on St. Helena Island. Beaufort County citizens take pride in protecting their water resources and it encompasses the essence of the Lowcountry. The County has over 85% of the designated shellfish harvesting waters open for harvesting. The County's Stormwater Utility was created to address drainage issues and to protect our water uses. This photo was taken by Scott Hansen and it won the 2010 Association of Watershed and Stormwater Professionals' photograph contest.
