

DON'T TRASH IT! COMPOST!

Recycle your **FOOD SCRAPS** into **COMPOST!**

What is composting?

Composting is turning food scraps and yard waste into nutrient-rich soil. Drop off your food waste here to help reduce trash and grow healthy soil.

What are the benefits?

Composting reduces landfill waste, helps the environment, and supports healthy gardens and flower beds.

How can you start?

Visit beaufortcounty.com/compost to register to participate in Beaufort County's composting program.
