

IF YOU SERVED *you can* DREAM

Dream Foundation's Dreams for Veterans program serves our nation's terminally-ill military veterans and their families by bringing their final Dream to life, providing those who served our nation, their families and caregivers inspiration, comfort and closure at the end of life. Dreams play a critical role in the special end-of-life care that focuses on improving quality of life for veterans and their families.

DREAM RECIPIENTS ARE U.S. military veterans, those currently on active duty, in the reserve or National Guard with a life expectancy of 12 months or less. This program, created in 2014, acknowledges veterans and honors their service by fulfilling their final Dream.

Dreams range from basic need items (like a working appliance or wheelchair ramp) to bedside reunions, final vacations with family, meetings with personal heroes or reconnecting with aspects of former military service.

YOU CAN HELP BY referring applicants, volunteering to help make Dreams come true, or donating time or resources to Dreams for Veterans.
